Thank you for your interest in the **2020** *Mortise* & *Tenon* **Pre-industrial Immersion Workshop**, taking place **June 8-12** at our shop in Sedgwick, Maine.

Mortise & Tenon exists to "cultivate reverence for the dignity of humanity and the natural world through the celebration of handcraft." This mission informs our **goal for this workshop**, which is to "cultivate a humane work ethic (i.e. human-powered and human-guided) through respect for and appreciation of physical labor and development of self-reliance through broad competence."

Besides time at the bench working with period tools, we will examine historic furniture, explore the forest environment, and make use of the shop's research library. Please note that this week will be physically exertive, akin to taking a five-day hiking trip.

There is **not one specific project** intended for everyone but we will work with each student beforehand to develop a project that is based on his or her interest that will provide challenge and growth.

We charge **no tuition** for participation in this workshop, but instead offer it on **work exchange** – two days of students helping us on projects around the shop and three days of instruction and bench time. All we ask is that each student chip in \$70 to help cover the cost of breakfasts and lunches.

Please see the "Information & Logistics" sheet for flight planning, accommodations, and other information. You may email us at info@mortiseandtenonmag.com with further questions.

To help us select the six candidates best suited for this class, we would like to know a little bit more about you. Please print this form and write a brief paragraph or two answering the following:

1.	Please tell us about your experience with woodworking, historic furniture, or the natural world (hiking, traditional skills, etc.).
2.	Why do you believe this class would be a good fit for you at this stage of your life?

3. What do you hope to learn from this experience?
