

Auriderm®

Auriderm® products, with the power of Vitamin K Oxide, help to topically tackle hemosiderin, the primary cause of post-procedure bruising, spider veins and dark circles under the eyes.

Auriderm® Clearing Gel – 2% Vitamin K Oxide (30 g)

Auriderm® Clearing Gel helps to improve the appearance of spider veins. Spider veins are small, thread-like veins most often seen on the surface of the skin. They are formed when a tiny pinhole tear occurs in the capillary or artery beneath the skin's surface.

Ingredients: Water (Aqua), Alcohol Denat., Ethoxydiglycol, Propylene Glycol, Capric/Caprylic Triglyceride, Phytonadione Epoxide, Sodium Acrylate / Sodium, Acryloyldimethyl Taurate Copolymer, Polyisobutene, Phosphatidylcholine, Caprylyl/Capryl Glucoside, Tocopherol, Tocopheryl Acetate, Ascorbyl Palmitate, Glyceryl Stearate, Oleic Acid, Triethanolamine, Carbomer, Styrene / Acrylates Copolymer, Disodium EDTA, Parfum, d-Limonene / l-Limonene / Dipentene

Auriderm® Post-Op Gel – 2% Vitamin K Oxide (10 g)

Auriderm® Post-Op Gel helps to promote healing and helps improve the appearance of post-procedure bruises. Bruising and swelling are common side effects of many aesthetic procedures. Auriderm® Post-Op Gel helps to significantly reduce the severity and duration of a bruise by about 50%. This gel is perfect for use after procedures including blepharoplasty, rhinoplasty, injectables, dermal fillers, vascular treatments, and liposuction.

Ingredients: Water (Aqua), Alcohol Denat., Ethoxydiglycol, Propylene Glycol, Capric/Caprylic Triglyceride, Phytonadione Epoxide, Sodium Acrylate / Sodium, Acryloyldimethyl Taurate Copolymer, Polyisobutene, Phosphatidylcholine, Caprylyl/Capryl Glucoside, Tocopherol, Tocopheryl Acetate, Ascorbyl Palmitate, Glyceryl Stearate, Oleic Acid, Triethanolamine, Carbomer, Styrene / Acrylates Copolymer, Disodium EDTA, Parfum, d-Limonene / l-Limonene / Dipentene

Auriderm® Post-Procedural Relief Kit: – 2% Vitamin K Oxide (10 g) with Arnica Montana Tablets

This kit contains the Post-Op Gel (which helps the body's natural healing process) and a 5-day supply of sublingual Arnica Montana tablets. Arnica Montana has a long homeopathic history for reducing swelling, which frequently results from procedural trauma.

Tablet Ingredients: (HPUS) Arnica Montana 30x, Lactose

Auriderm® Vanishing Gel – 1% Vitamin K Oxide (50 g)

Auriderm® Vanishing Gel helps to improve the appearance of chronic purpura. Purpura is a condition characterized by purplish lesions in the skin. There are several types of purpura including chronic purpura, actinic and Batman's purpura. Auriderm® Vanishing Gel may help hasten the resolution of post-procedural pupura.¹ This gel is soothing, non-irritating and can be used continuously to help prevent or diminish recurrence.

Tip: The 1% Vitamin K Oxide is best for long term use.

Ingredients: Water (Aqua), Alcohol, Ethoxydiglycol, Propylene Glycol, Caprylic/Capric Triglyceride, Phytonadione Epoxide, Sodium Acrylate/Sodium Acryloyldimethyl Taurate/Acrylamide Copolymer, Polyisobutene, Isopropyl Alcohol, Triethanolamine, Carbomer, Tocopheryl Acetate, Styrene/Acrylates Copolymer, Phosphatidylcholine, Tocopherol, Ascorbyl Palmitate, Disodium EDTA, Sorbitan Oleate, Caprylyl/Capryl Glucoside, Parfum, Glyceryl Stearate, Oleic Acid, D-Limonene/L-Limonene/Dipentene, Cyclohexane
