

Unleash the Power of **VITAMIN K OXIDE**

Ideal for AM
— OR —
2x a day

Reduce Dark Circles Under the Eyes **DARK CIRCLE RELIEF CREAM**

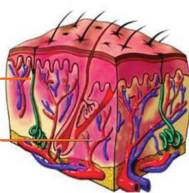

- Contains Vitamin K Oxide which helps reduce the appearance of discoloration or dark circles from hemosiderin
- Helps tighten skin to reduce the appearance of shadows
- Strengthens capillaries to reduce hemosiderin deposits
- Contains light-reflecting minerals to reduce the transparency of the skin and dark under eye pigmentation

Why **Dark Circles Occur**

Cross Section of Skin

Damage occurs to blood vessels

Blood seeping beneath the skin surface causes bruising

- **Blood vessels are broken in two ways:**
 - + Via injury (local trauma)
 - + Via vascular wall break down
- **Skin remains intact**
- **Blood seeps into the surrounding tissue**
- **Hemoglobin converts to Hemosiderin as part of the clotting process**
 - + Hemosiderin is the persistent staining found in bruises, spider veins, chronic purpura and dark under eye circles
