

biopelle® BRIGHTEN

Brighten utilizes a multitude of brightening agents - all hydroquinone free - to help lighten, even skin tone and minimize the look of hyperpigmentation. Brighten has the most potent non-hydroquinone arsenal in the fight against uneven skin tone.

biopelle®

BRIGHTEN

XCP Brightening Serum – 10% L-Ascorbic Acid (Vitamin C) and 2% Phytic Acid

Ideal for AM use, this powerful combination of L-Ascorbic Acid and Phytic Acid helps improve the appearance of uneven skin tone while protecting against sun damage.

Ingredients: Water, L-Ascorbic Acid (Vitamin C), Glycerin, Alcohol, Phytic Acid, Ethoxydiglycol, Camellia Sinesis Leaf (Green Tea) Extract, Vitis Vinifera (Grape) Fruit Extract

KNR Serum – 2% Kojic Acid, 4% Niacinamide, 0.15% Retinol

Ideal for PM use, this Serum contains three powerful agents – Kojic Acid, Niacinamide and Retinol – which, along with peptides and other skin rejuvenation ingredients, help brighten and even out skin tone. KNR Serum features an exclusive Retinsphere® liposomal delivery system which helps increase penetration and efficacy of the Retinol.

Ingredients: Water (Aqua), Butylene Glycol, Dimethyl Isosorbide, Glycerin, Niacinamide, PEG-7 Glyceryl Cocoate, Portulaca Oleracea Extract, Acetyl Glucosamine, Kojic Acid, Hydroxypinacolone Retinoate, Retinol, Phenoxyethanol, Caprylyl Glycol, Propylene Glycol, Trisodium Ethylenediamine Disuccinate, Hexylene Glycol, Decarboxy Carnosine HCl, Aminoethylphosphinic Acid, Pentylene Glycol, Fructose, Lactitol, Glycosaminoglycans, Salicylic Acid, Tocopheryl Acetate, Tetrahexyldecyl Ascorbate, Ethylhexylglycerin, Acetyl Hexapeptide-37, Trehalose, Xanthan Gum, Methyl Gluceth-20, Methylsilanol Hydroxyproline Aspartate, Hydrolyzed Caesalpinia Spinosa Gum, Caesalpinia Spinosa Gum, Sorbitol, Sodium Metabisulfite, Lecithin, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Sodium Carbomer, Acrylates/Vinyl Isodecanoate Crosspolymer, Palmitoyl Hydroxypropyltrimonium Amylopectin/Glycerin Crosspolymer, Polysorbate 20, Hydrogenated Lecithin, Parfum, Red 33 (CI17200)

Tip: Utilize XCP in the morning and KNR at night to coincide with the skin's circadian rhythm and skin's natural defense/repair process.

Brightening Cream – 7% Arbutin, 3% Phytic Acid

Brightening Cream combines 7% Arbutin with 3% Phytic Acid to help lighten skin, plus dimethicone and collagen to help improve the appearance of skin tone and texture. These ingredients are delivered in a highly emollient and moisturizing cream.

Ingredients: Water (Aqua), Arbutin, Sorbitan Stearate, PEG-100 Stearate, Phytic Acid, Dimethicone, Glycerin, Glyceryl Stearate, C12-15 Alkyl Benzoate, Cetareth-20, Cetaryl Alcohol, Phenoxyethanol, Soluble Collagen, Butylene Glycol, Sodium PCA, Methyl Gluceth-20, Carbomer, C13-14 Isoparaffin, Laureth-7, Polyacrylamide, DMDM Hydantoin, Iodopropynyl Butylcarbamate, Disodium EDTA

Dark Circle Relief Cream – 1% Vitamin K Oxide

Vitamin K Oxide helps reduce the appearance of discoloration and dark circles under the eyes. Ideal for use in the AM, or twice per day, as light-reflecting minerals have been added to help reduce the appearance of the transparency of the skin and dark under eye pigmentation.

Ingredients: Water, Ethyl Alcohol, C12-15 Alkyl, Benzoate, Caprylic/Capric Triglyceride, Parafinum Liquidum, Cyclomethicone, Glycerin, Lecithin, Sodium PCA, MICA, Phospholipids, Phytonadione Epoxide Hexane, Titanium Dioxide, Polysorbate 20, Acrylates/Acrylamide Copolymer, Phenoxyethanol, Acrylates/C10-30 Alkyl Crosspolymer, Triethanolamine, Carbomer, Disodium EDTA, Propylparaben, Methylparaben, BHT, BHA
