

EXFOLIATE **GLYCOLIC ACID + TAURINE**

Exfoliation is an essential part of a healthy skin care regimen. Exfoliation removes dead skin cells from the uppermost layer of your skin to reveal the fresher, younger skin underneath. Sloughing off these dead skin cells will help to even out the appearance of skin tone while removing pore clogging dirt and oil. The EXFOLIATE line of products include a unique and synergistic combination of AHA + Taurine to provide enhanced exfoliation while decreasing the irritation often associated with glycolics.

## CLEANSERS

AM PM

- EXFOLIATING CREAM CLEANSER - 2.2% Glycolic Acid**  
A lightly foaming, soap-free cleanser that gently removes impurities, excess oil and residual make-up from skin's surface. Ideal for normal-to-dry skin.

 

- EXFOLIATING GEL CLEANSER - 10% Glycolic Acid**  
This "ultimate" gel cleanser combines two powerful ingredients, Glycolic Acid + Taurine, for daily skin cleansing, leaving skin fresh, smooth and free of impurities. Ideal for normal-to-oily skin.

 

## HOME PEELS - FACE

AM PM

These gels, available for every patient's skin type, comes in three strengths and deliver at-home exfoliation. Use 3-5 times a week to help improve skin tone and texture.
