

TENSAGE® STEM CELL

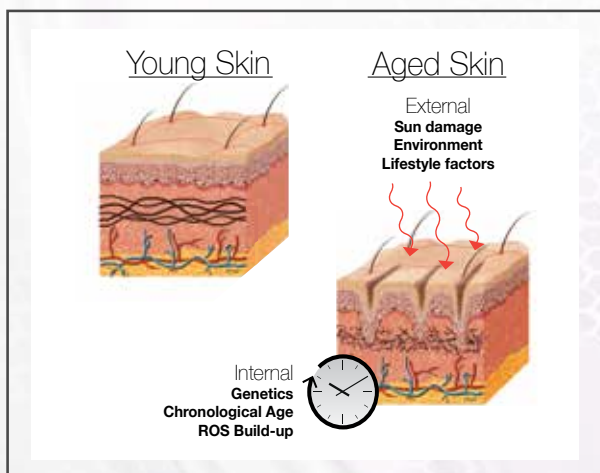

Replenish • Reinforce • Restore

FORMULATED WITH
CELLPRO™
TECHNOLOGY

AGING & YOUR SKIN

The visible signs of aging are a result of multiple factors, both external and internal. Even if we carefully avoid the external factors – sun, smoke and environmental toxins – the natural, or internal, aging process will lead to the appearance of fine lines and wrinkles. This natural aging process is predetermined by our genetic makeup and underlying skin type. It is an inevitable process that occurs in all people and begins as early as our 20's!

YOUR SKIN & TENSAGE[®] STEM CELL

With age, stem cells lose their capacity to self renew and replace skin cells that have died. As these existing skin cells deplete, so do the proteins vital to the support & preservation of skin's structure. Recently, European scientists discovered a new way to combat this natural aging process and restore youthful-looking skin with **CellPro™ Technology**.

CELLPRO™ TECHNOLOGY

Tensage Stem Cell features CellPro Technology, a unique, natural ingredient extracted from the eggs of the *Cryptomphalus aspersa* snail. This new pathway to rejuvenation helps assist the natural activity of stem cells and is clinically proven to help^{1,2,3}:

- **Replenish** skin cells
- **Reinforce** skin's integrity
- **Restore** a healthy, youthful-appearance

CLINICALLY PROVEN

Tensage® Stem Cell is clinically proven to help improve the appearance of fine lines and wrinkles, rough texture, uneven skin tone, skin fragility, dark circles and under eye puffiness.¹

Facial Wrinkle Grade Analysis

Results: Wrinkles in all areas were reduced during the 12 week treatment.

Areas of Improvement	Wrinkle Reduction
Cheek	✓
Eye	✓
Forehead	✓
Perioral	✓

Conclusion: Twice daily application of **Tensage Stem Cell** will yield continued improvement of all parameters in the study.

Skin Condition Analysis

Results: Gradual and highly statistically significant improvements were seen throughout the 12 week treatment.

Skin Condition	12 Weeks
Roughness	53% Reduction
Elasticity	39% Improvement
Brightness	26% Improvement
Pigmentation	12% Improvement

Conclusion: Twice daily application of **Tensage Stem Cell** will yield continued improvement of all parameters in the study.

Tolerability Analysis

Results: No stinging, burning, itching, redness, peeling or swelling occurred as a result of the 12 week treatment. All 40 subjects completed the study.

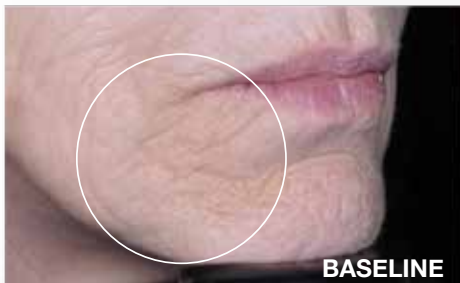

Conclusion: **Tensage Stem Cell** is suitable for all skin types.

PRODUCTS

Tensage® Stem Cell products feature rich, nourishing formulations ideal for maturing skin.

Tensage Stem Cell Cream

This rich cream helps combat multiple signs of aging on the face, neck & décolleté.

Helps reduce the appearance of:

- Fine lines & wrinkles
- Rough texture
- Uneven skin tone
- Skin fragility

Application: Apply nightly to the entire face, avoiding the eye area. One pump may sufficiently cover the entire face. If applied in the AM, apply a sunscreen of SPF 30 or higher.

Additional Ingredients: Retinol, Peptides, Ceramide NP, Vitamins C & E, Humectants, Antioxidants, Soothing Botanical Extracts *Paraben-free*

Tensage Stem Cell Eye Cream

Ideal for the fragile eye area, this eye cream helps combat multiple signs of aging around the eyes – like crow's feet, dark circles and under eye puffiness.

Helps reduce the appearance of:

- Crow's feet
- Dark circles
- Under eye puffiness

Application: Apply nightly around the fragile eye area. One pump sufficiently covers both eye areas. If applied in the AM, apply a sunscreen of SPF 30 or higher.

Additional Ingredients: Retinol, Peptides, Caffeine, Sodium Hyaluronate, Antioxidants, Humectants, Brightening Agents, Soothing Botanical Extracts

Paraben-free
