

TENSAGE® STEM CELL WITH CELLPRO™ TECHNOLOGY

As we age, the cells in our skin break down and the natural stem cells are less able to replace them. Even if we carefully avoid sunlight and other damaging conditions, this natural aging process will lead to the appearance of fine lines and wrinkles. Tensage Stem Cell Cream features CellPro Technology, a unique, natural ingredient extracted from the eggs of the *Cryptomphalus aspersa* snail in an exclusive, patented process, to help improve skin's appearance during the aging process.

With regular use, Tensage Stem Cell products can help:

- Reduce the visible signs of aging
- Protect from future damage
- Restore healthy, youthful-looking skin

TENSAGE STEM CELL

AM PM

**TENSAGE STEM CELL CREAM**

A rich, nourishing formulation ideal for maturing skin. Tensage Stem Cell Cream helps reduce the appearance of fine lines and wrinkles, smooth rough texture, and even skin tone while firming and plumping fragile skin. Additional ingredients include peptides, ceramide NP, Vitamin C, Vitamin E, antioxidants, soothing botanical extracts and retinol. Ideal for PM use. If applied in the AM, apply a sunscreen of SPF 30 or higher. *Paraben-free.*

**TENSAGE STEM CELL EYE CREAM**

A rich, nourishing formulation ideal for the fragile eye area. Tensage Stem Cell Eye Cream helps to firm skin and reduce the appearance of fine lines, wrinkles, dark circles and under eye puffiness. Additional ingredients include caffeine, peptides, antioxidants, soothing botanical extracts, brightening agents, sodium hyaluronate and retinol. Ideal for PM use. If applied in the AM, apply a sunscreen of SPF 30 or higher. *Paraben-free.*

TENSAGE ENHANCED REGIMEN: STEM CELL & GROWTH FACTOR

Providing two clinically proven technologies that work together to form the most advanced, synergistic skin care regimen to help repair and restore aging skin.

Tensage Growth Factor with SCA Biorepair Technology assists in the efficiency of existing skin cells (Repair, Maintain & Protect), while Tensage Stem Cell with CellPro Technology assists the body's natural ability to generate new skin cells from the body's own stem cells^{1,2,3} (Replenish, Reinforce, Restore).

TENSAGE GROWTH FACTOR

AM PM

**TENSAGE INTENSIVE SERUM 50 - SCA 50 BIOREPAIR INDEX**

For fast, dramatic improvement in the visible appearance of moderate-to-severe skin damage caused by UV light as well as environmental and smoke toxins. Additional ingredients include: antioxidants, glycoproteins, humectants, peptides and brightening agents.

Note: *Do not apply post-procedure as additional ingredients may cause irritation.*

**INTENSIVE SERUM 40 - SCA 40 BIOREPAIR INDEX**

A high level of growth factor that helps shorten healing time, optimize procedural outcomes and reduce negative procedural side effects - with visible improvement in as little as 24 hours after application. Tensage 40 ampoules are used extensively to dramatically reduce downtime from procedures like microneedling, lasers and chemical peels.

**TENSAGE SERUM - SCA 15 BIOREPAIR INDEX**

Perfect for all skin types, this elegant, oil-free daily serum can help improve the visible signs of aging caused by photodamage and help maintain results. Additional ingredients include niacinamide, hyaluronic acid, antioxidants, brightening agents and humectants.

**TENSAGE RADIANCE EYE CREAM - SCA 10 BIOREPAIR INDEX**

This lightly tinted cream can help even skin tone while firming and tightening the delicate eye area. Includes antioxidants for daily protection, peptides to help improve the appearance of fine line and wrinkles and brightening agents to help illuminate tired eyes.
