

Exfoliation without Irritation

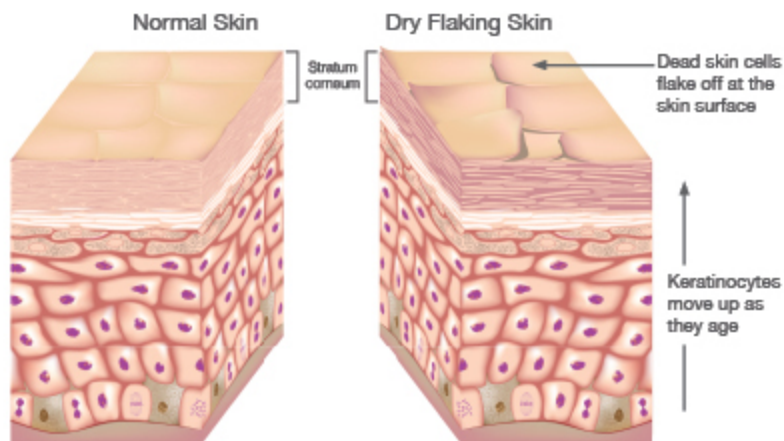

The Power of Glycolic Acid + Taurine

When combined with Glycolic Acid, Taurine helps to calm the skin and enhance the exfoliation effect of Glycolic Acid on fine lines and wrinkles. Simply adding a biopelle exfoliating product to your skin care routine can help reduce dull, flaky skin and help your skin look radiant.

Structure of the Epidermis

The Importance of Exfoliation

Glycolic Acid + Taurine products help to:

- Exfoliate dead skin cells while minimizing irritation
- Deliver the appearance of smoother, younger looking skin
- Diminish the appearance of fine lines
- Smooth rough skin texture
- Reveal a more even skin tone
