

biopelle® EXFOLIATE

Exfoliation is an essential part of a healthy skin care regimen. Exfoliation removes dead skin cells from the uppermost layer of your skin to reveal the fresher, younger skin underneath. Sloughing off these dead skin cells will help to even out the appearance of skin tone while removing pore clogging dirt and oil. The EXFOLIATE line of products include a unique and synergistic combination of AHA PLUS Taurine that provide enhanced exfoliation while decreasing the irritation that is often associated with glycolics.

biopelle®

EXFOLIATE

Exfoliating Home Peels – Mild 10%, Plus 15%, & Max 20%

These gels, available for every patient's skin type, comes in three strengths and deliver at-home exfoliation. Use 3-5 times a week to help improve skin tone and texture.

Mild 10% - A light peel, ideal for sensitive skin and those just starting a home peel regimen.

Plus 15% - A medium strength peel, ideal for mature skin that has moderate sun-damage, uneven skin tone and texture.

Max 20% - A maximum strength peel, ideal for severe sun-damage, uneven skin tone and texture.

Ingredients: Water, Glycolic Acid, Ammonium Hydroxide, Phenoxyethanol, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol, Taurine, Hydroxyethylcellulose, Octoxynol-9

Cream Cleanser - 2.2% Glycolic Acid

A lightly foaming, soap-free cleanser that gently removes impurities, excess oil and residual make-up from skin's surface. Ideal for normal-to-dry skin.

Ingredients: Water, Sodium Laureth Sulfate, Glycolic Acid, Glycol Distearate, Cocamidopropyl Betaine, Taurine, Ammonium Hydroxide, Magnesium Aluminum Silicate, Glycerol Stearate, Cocamide DEA, Tallow, DMDM Hydantoin

Gel Cleanser - 10% Glycolic Acid

This "ultimate" gel cleanser combines two powerful ingredients, Glycolic Acid + Taurine, for daily skin cleansing, leaving skin fresh, smooth and free of impurities. Ideal for normal-to-oily skin.

Ingredients: Cocamidopropyl Betaine, Water, Glycolic Acid, Glycerin, Sodium Lauryl Sulfate, Ammonium Hydroxide, TEA-Dodecylbenzenesulfonate, Taurine

Exfoliating Heel Cream - 30% Glycolic Acid

Ideal for calloused and cracked feet. This exfoliating cream contains Glycolic Acid + Taurine for intense results. It removes dull, dead skin cells and leaves feet looking smooth and feeling soft with additional moisturizers to help provide long-lasting hydration.

Ingredients: Water, Glycolic Acid, Glycerol Stearate, PEG-100 Stearate, Glycerin, Mineral Oil, Sorbitan Stearate, Ammonium Hydroxide, Taurine, PEG-40 Stearate, Petrolatum, Ammonium Acryloyldimethyltaurate/VP Copolymer, Phenoxyethanol, Tocopheryl Acetate, Magnesium Aluminum Silicate, Sodium Benzoate
