

# PRESCRIBEDsolutions® [CUSTOMIZED SKINCARE]

Unique Solutions for  
Personalized Care.

The only products with customized multi-tasking activity along with individual boosters to create a high-performance line of skincare.

# PRESCRIBEDsolutions® [CUSTOMIZED SKINCARE]

## Personalized Skincare, To Treat *Your* Specific Needs

Everyone has particular skincare concerns. That's why PRESCRIBED**solutions** developed the only system that enables your skincare professional to customize your regimen, in a matter of seconds, with specific boosters that address your individual skin type and particular skin concerns.

Customized  
with  
Special  
Boosters

# STEP 1 - PREPARE

---

## Cleansers

Don't Be So Sensitive®

### **Post Procedure Cleanser**

This oil-free, sudsing cleanser with rich pillowy lather helps remove surface dirt and impurities, but is gentle enough to be used before – and even soon after – aesthetic procedures. Ideal for all skin types.

Starting Up/Face®

### **Glycolic Anti-oxidant Cleanser**

This gently foaming gel wash is loaded with anti-oxidants. Two exfoliating acids, Glycolic Acid and Salicylic Acid, help eliminate excess oil and slough away rough, dead skin cells. Soothing botanicals help calm skin and Lutein helps neutralize free radicals. Ideal for normal-to-oily skin types.

Surface Improvement®

### **Exfoliating Polish**

This gentle exfoliator, packed with environmentally friendly micro-exfoliants and soothing botanical extracts, helps rid the skin of oils, grime, environmental pollutants and accumulated dead skin cells to polish it to a silky texture and reveal brighter, fresher skin hidden below. Suitable for all skin types. Gentle enough to be used daily on the face.

# STEP 2 - REPAIR

## *Serums & Hydrators*

### Line Subtractor®

#### **Anti-aging Serum C + AHA**

The combination of Vitamin C with Glycolic Acid and Lactic Acid helps to repair and protect against UV radiation. Glycolic Acid and Lactic Acid sloughs off the rough outer skin to help reveal younger looking skin below, while Vitamin C helps reduce the appearance of fine lines and wrinkles and protects against free-radical damage. Especially effective on acne-prone skin. Apply in the AM to help protect skin throughout the day.

### Radical Results®

#### **Anti-oxidant Serum C + E Plus**

This anti-oxidant serum with Vitamin C and E helps protect the skin against free radical damage, soften fine lines and wrinkles and condition the skin for a healthy, radiant look. Apply in the AM and PM after cleansing. Use in addition to your daily sunscreen.

### A Bolt of Lightening®

#### **Skin Brightening Serum**

This powerful blend of six potent brightening agents can help reduce the appearance of hyperpigmentation due to aging and can help even skin tone. Hydroquinone-free.

### The Eyes Have It !™

#### **Intensive Eye Therapy**

This lightweight serum helps address three different concerns around the eye area:

- Patented anti-puffiness complex helps relieve puffiness and increase firmness
- Five different brightening agents help reduce the appearance of dark circles
- Botanical peptide helps reduce the appearance of crow's feet

### Correction Fluid®

#### **Retinol Night Cream with 0.5% Retinol**

This rich retinol cream helps to nourish and repair while improving resilience, tone and texture. Correction Fluid has been shown to help visibly diminish the appearance of fine lines and wrinkles. Suitable for all skin types.

Control Tactics®

## Neurocosmetic Soothing & Daily Sensitive Skin Gel

This innovative gel was developed to help skin recover after procedures. Pre-treating the skin for as little as 1 week before an ablative procedure can also help significantly reduce post-procedure downtime.

Body of Knowledge®

## Slimming and Contouring Cream

This firming body lotion helps diminish the appearance of cellulite in the abdomen, thighs, hips, buttocks and loose skin under the chin and arms while it tones and smoothes. Designed to help complement and enhance body shaping therapies, it contains the latest technology including a proprietary "slimming and reducing complex" that helps reduce the look of cellulite.

# STEP 3 - MAINTAIN

## Sunscreens

### Lasting Results™ Moisturizer with Broad Spectrum SPF 50

Rich in moisturizers to provide superior hydration, this sunscreen delivers SPF 50 protection against both UVA and UVB rays. Lasting Results helps to replace the skin's moisture loss due to sun or environmental pollution and helps visibly reduce the appearance of fine lines and wrinkles. This product can not be boosted because of the container.

Active Ingredients: **Octylcrylene 10%, Octinoxate 7.5%, Oxybenzone 5%, Octisalate 5%, Avobenzone 3%**

Up the Anti®

### Broad Spectrum SPF 30

This formula physically blocks UVA/UVB and visible rays to help prevent sunburn, photodamage, freckling and uneven coloration. Up the Anti is a light, but effective formula that leaves a warm, slight bronze sunkissed tint on the skin. This product can not be boosted because of the container.

Active Ingredients: **Zinc Oxide 6.0%, Titanium Dioxide 3.2%**

# Triple Action DNA Repair

DNA is the “building block of life” and is the key to cellular health and survival. DNA repair has become a vital part of the skincare regimen to help repair and maintain youthful looking skin.

## Urbane Renewal™

### Triple Action Anti-Oxidant Serum

This light serum has a heavy arsenal of ingredients that help repair and protect the skin against free radical damage caused by today's pollutant-heavy urban environments.

- Helps repair damage caused by free radicals
- Helps protect the skin against free radical damage
- Helps re-energize the skin

## Stop the Clock®

### Triple Action Sunscreen with SPF 50

This all-in-one product helps revitalize the look and feel of skin while protecting it from sun damage.

- Broad-spectrum sun protection
- Reparative anti-oxidants help reinforce natural free-radical protection
- Firming peptides to help revitalize the look and feel of skin

Apply in the AM after applying your favorite PRESCRIBED **solutions** serum.

## Cream – No Sugar®

### Triple Action Anti-Glycation Night Cream

This luxurious night cream moisturizes the skin while helping to repair and protect against glycation damage. Glycation damage comes from sugars within our diet that can attack healthy skin cells causing skin to look sallow and yellowed.

- Helps repair and protect against glycation damage
- Helps repair damage caused by free radicals
- Helps deeply moisturize and replenish skin

# Boosters

---

To ensure these **PRESCRIBED solutions** products address your individual concerns, physicians customize them with special condition-specific boosters. Virtually every product in the range can be customized with one of the boosters below:

**Brightening Booster** – Helps address hyperpigmentation and uneven skin tone

**Anti-inflammatory Booster** – Helps soothe outbreaks and irritated skin

**Firming Booster** – Helps tighten and firm skin

**Anti-oxidant Booster** – Helps protect skin from damaging free-radicals

**Hydration Booster** – Helps moisturize dry and extremely dry skin

**Acne Control Booster** – Helps skin prone to breakouts

**Rosacea Control Booster** – Helps reduce redness, dryness, and irritation associated with rosacea

**Lifting Booster** – Helps to visibly lift expression lines

**Menopause Control Booster** – Helps to visibly improve skin texture, tone, elasticity & clarity

**DNA Repair Booster** – Helps skin's ability to repair damage

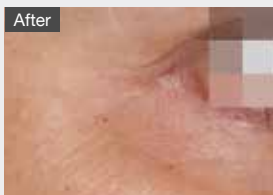

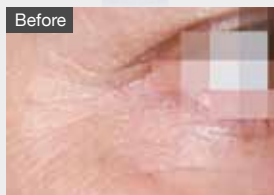

Boosters can help address specific skincare concerns

# Clinical Results

## DNA Repair Results

Clinical Study: Patients used a 12-week regimen of Triple-Action DNA Repair products that included:

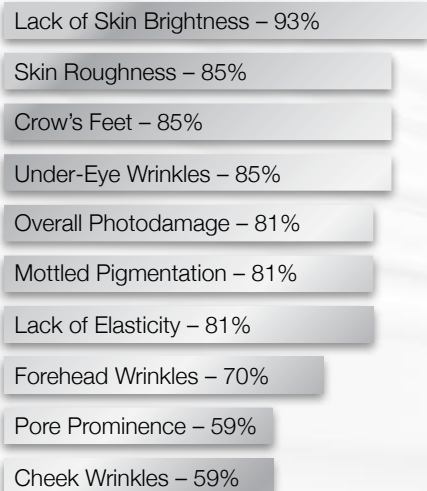

**AM – Stop the Clock and Urbane Renewal**

**PM – Urbane Renewal and Cream-No Sugar**

Conclusion: Twice daily application of a skincare regimen containing DNA repair enzymes (to excise, extract, and repair damaged DNA) and supplemental protein substrates (to serve as repair process precursors) yielded improvement in all major parameters that signify cutaneous photo-aging after 12 weeks of use.
