

PRESCRIBEDsolutions[®] [CUSTOMIZED SKINCARE]

The PRESCRIBEDsolutions Triple-Action DNA product regimen yields improvement in all major parameters that signify cutaneous photo-aging after 12-weeks of use.¹

Stop the Clock[®]

Triple Action Sunscreen with SPF 50

- Broad-spectrum sun protection
- Reparative anti-oxidants help reinforce natural free-radical protection
- Firming peptides to help revitalize the look and feel of skin

Urbane Renewal[™]

Triple Action Anti-Oxidant Serum

- Helps repair damage caused by free radicals
- Helps protect the skin against free radical damage
- Helps re-energize the skin

Cream - No Sugar[®]

Triple Action Anti-Glycation Night Cream

- Helps repair and protect against glycation damage
- Helps repair damage caused by free radicals
- Helps deeply moisturize skin

Clinical Results

Before

12 Weeks

Clinical Results

Patient used a 12 week regimen of PRESCRIBEDsolutions DNA products that included AM use of Stop the Clock and Urbane Renewal and PM use of Urbane Renewal and Cream - No Sugar. Photos courtesy of Dr. Hema Sundaram. Skin in photos has not been retouched.
