LEDEN DESIGN

Leden Design was founded in 2016 by artist and creative director Lydia Batts, with the idea of bringing high-quality, unique nature-inspired designs to the everyday home.

Starting with a small set of artwork, this has quickly grown to include a collection of 250+ art pieces spanning our Classic, Limited, and recently added Exclusive editions, offering a range of artwork and stylings to fit our changing homes.

With a growing range of new designs and styles, our aim is to continue to deliver our signature watercolour-styled artwork, that adorns the walls of our customers throughout New Zealand and abroad. Along with this, we are excited to share some new products that will complement our existing artwork and vision to transform and beautify our spaces.

THE WORK PRESENTED

This range offers a beautiful balance of soft florals and striking patterns. Central to this collection is the colour pallet made up of beautiful sage green, accompanied by hazel brown and ruby red. This collection's high-contrast designs make them ready to make a statement on any wall

Available in our open Classic Edition, this mini-set captures classic vase designs, along with a variety of our favourite bouquets. A vase of flowers that can be enjoyed for many years to come.

Quality

When it comes to creating art, every detail matters. We are dedicated to providing the highest standard of quality across all our products

Hand-painted

All of our artwork starts as hand-painted originals inspired by our the nature around us

Locally Made

We take pride in handcrafting all of our products in our studios in New Zealand and Australia.

Poster Prints.

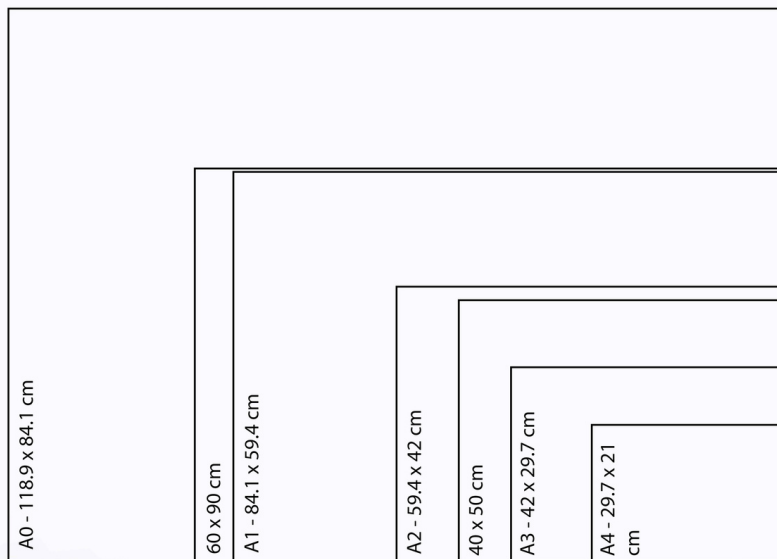

Leden Design's posters are produced using high-quality giclée printing, with archival inks producing beautiful rich colours. We print on a 310gsm 100% cotton rag, which has a light textured finish, and extremely good age resistance.

Framed Borderless

Our standard contemporary colours come with protective glass and shatterproof Arylic (A0) to protect the print and complete with ready to hang hardware

For **border** options and other customisations available please reach out
