GEAR SHIFTER MOUNT ADD-ON

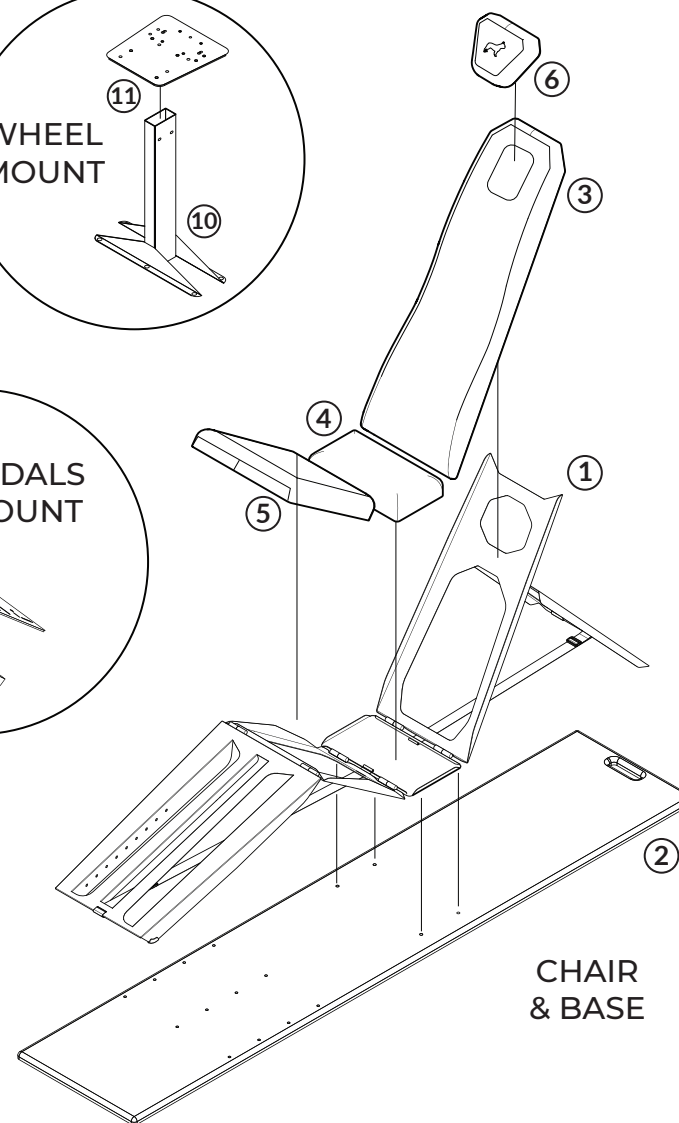

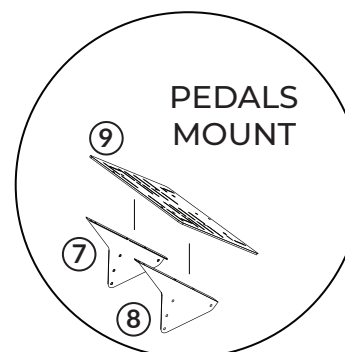

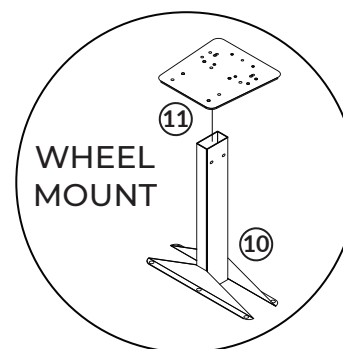

If you ordered a gear shifter mount, these are the components and bolts. Sort them out by the quantities below.

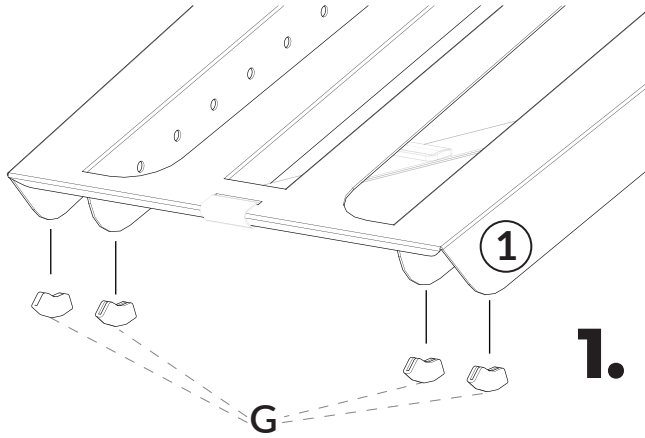

SPEED COCKPIT

Includes:

- 1. Chair chassis 2. Wooden base 3. Back cushion 4. Seat cushion 5. Legs cushion
- 6. Headrest 7-8. Support triangles 9. Pedals base 10. Wheel Support tube
- 11. Wheel base

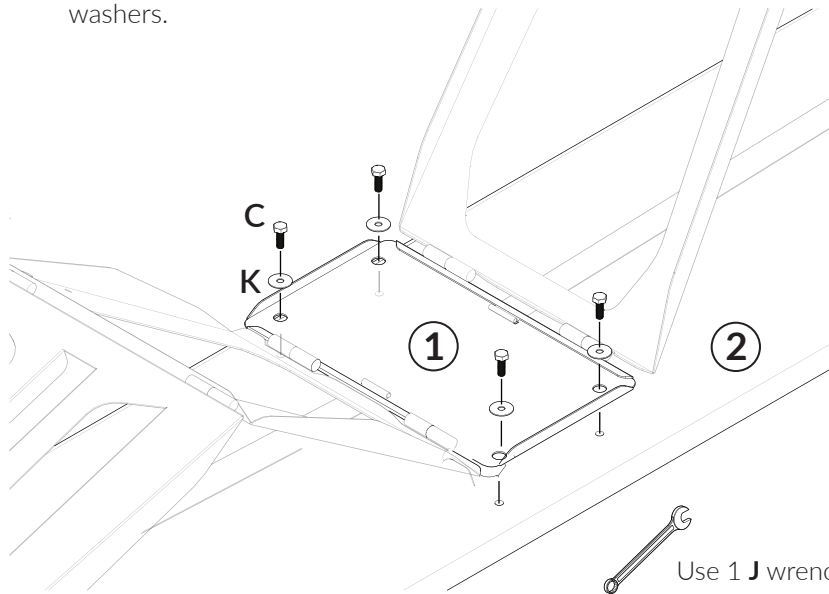

ASSEMBLY

1. Put rubber buffers **G** on bottom of chair chassis **1**.

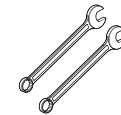

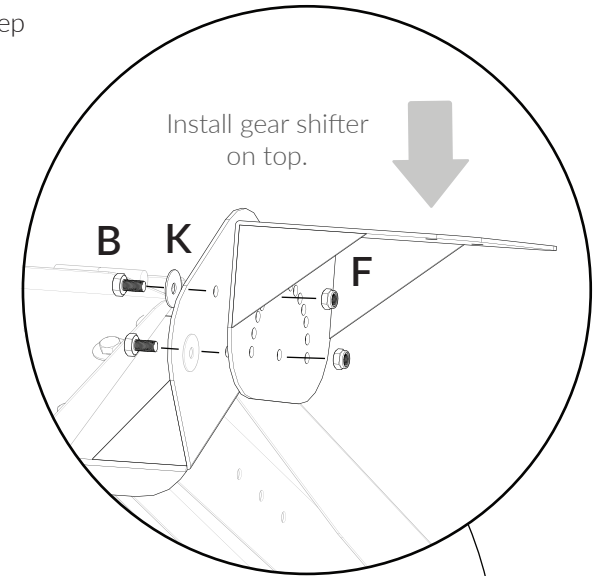

2. Place chair chassis **1** on top of wooden base **2** and secure with **C** bolts, and **K** washers.

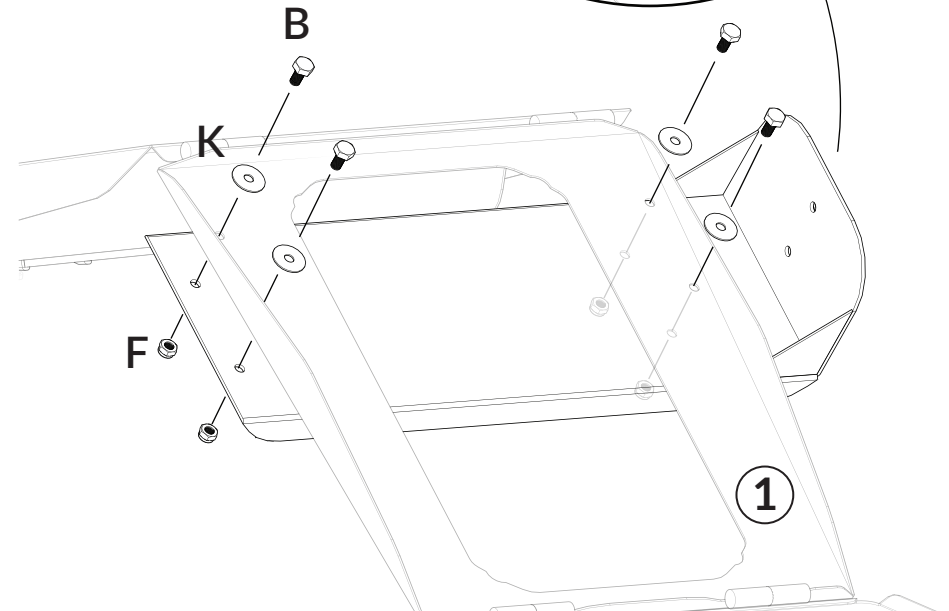

GEAR SHIFTER MOUNT

3. If you ordered a Gear Shifter mount, install it with **B** bolts, **K** washers and **F** locknuts.

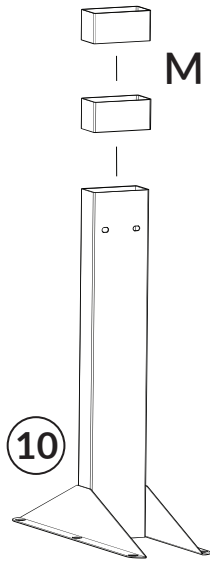

Or else skip this step

Use 2 **J** wrenches

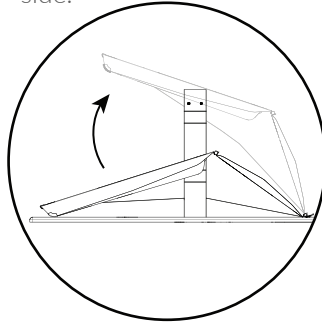

WHEEL MOUNT

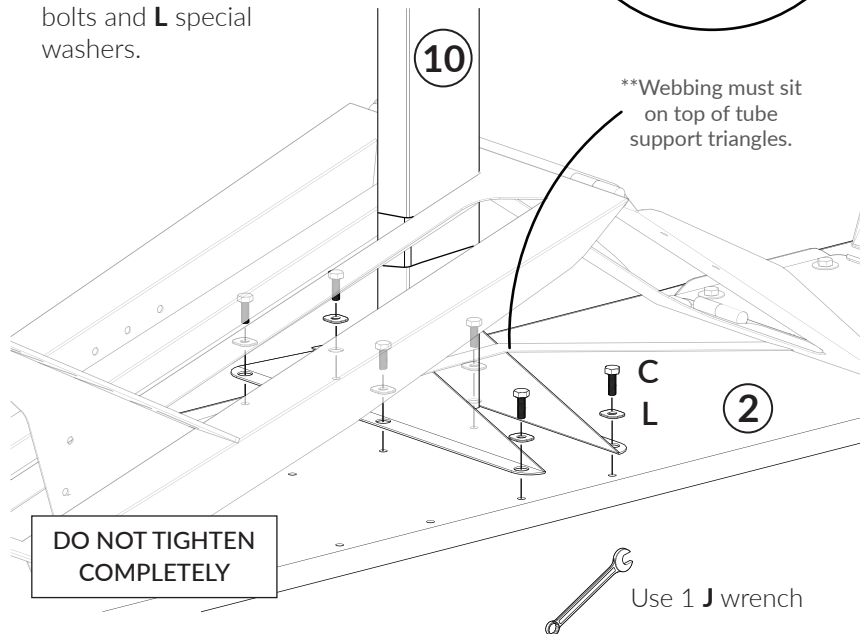

4.

Insert elastic bands **M** on wheel support tube **10**.

Lift chair chassis to place support tube under. Move webbing to one side.

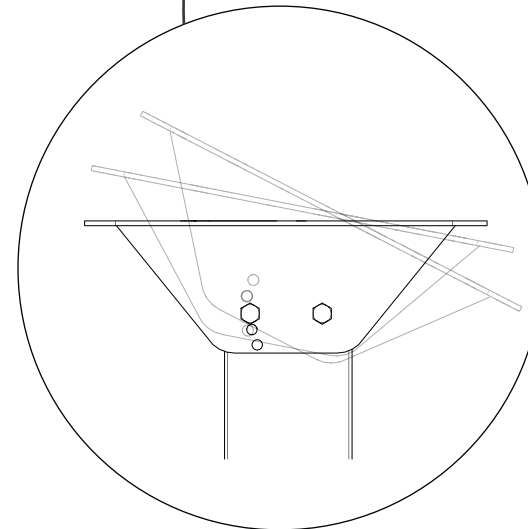

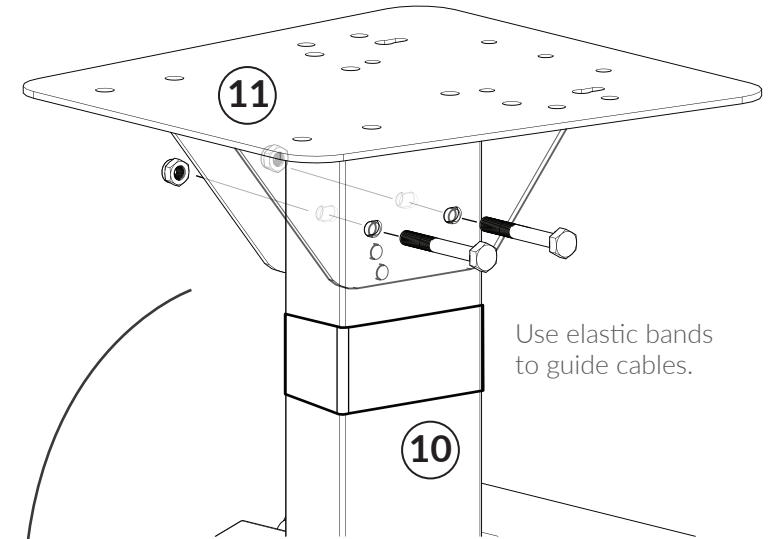

5. Place wheel tube **10** on wooden base **2** with **C** bolts and **L** special washers.

6. Place wheel mount **11** on top of wheel tube **10** with **D** bolts and **F** locknuts. Wider part facing seating area.

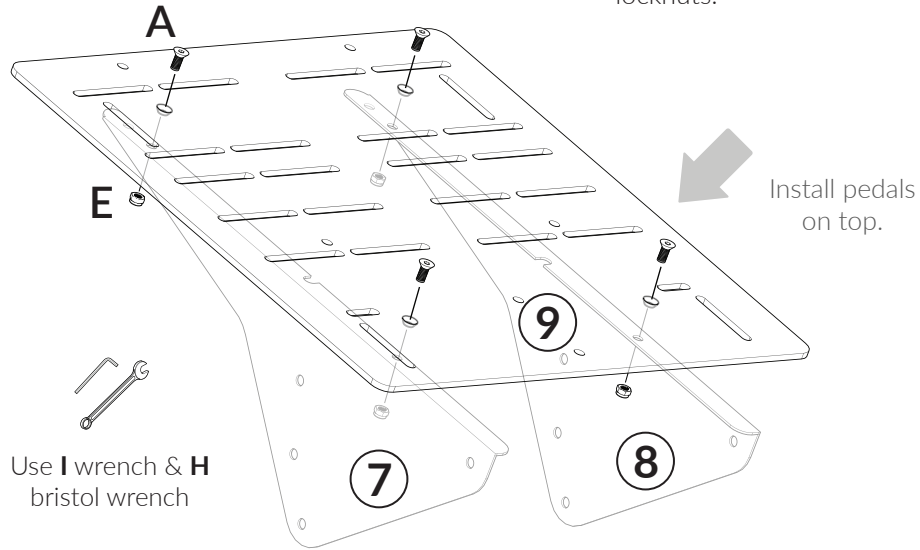

Install steering wheel on top.

Adjust wheel mount inclination according to your steering wheel.

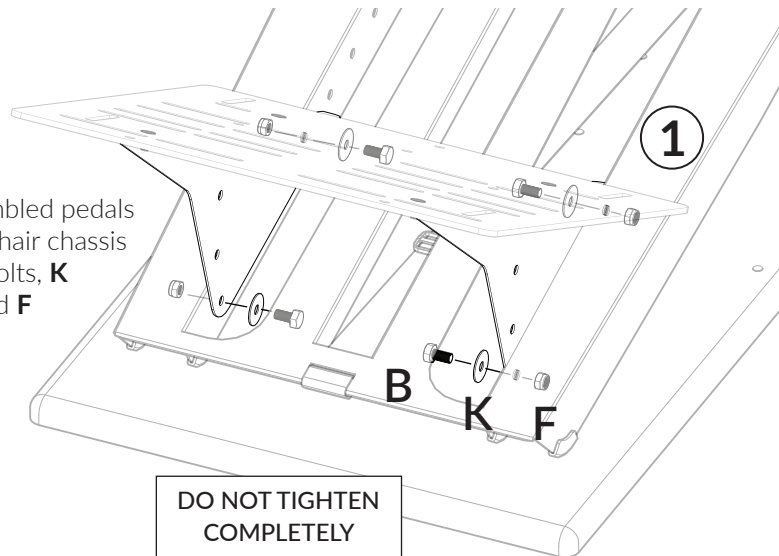

PEDALS MOUNT

- 7.** Assemble support triangles **7** & **8** with pedals base **9** using **A** bolts and **E** locknuts.

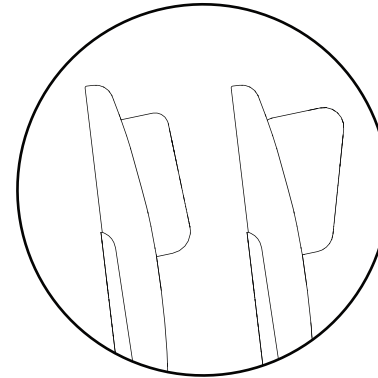

8.

Place assembled pedals mount on chair chassis **1** using **B** bolts, **K** washers and **F** locknuts.

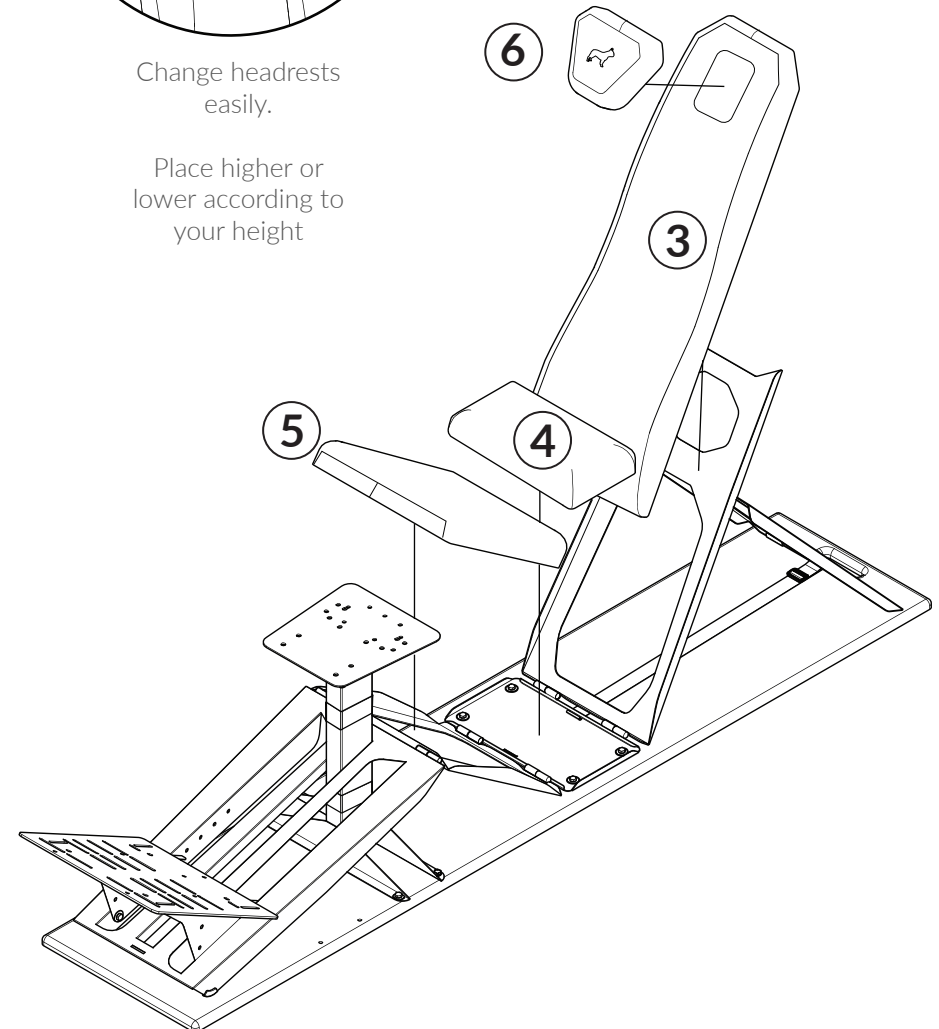

9.

Place cushions on chair chassis (Seat cushion **4** last), magnets in the back will help them stay in position.

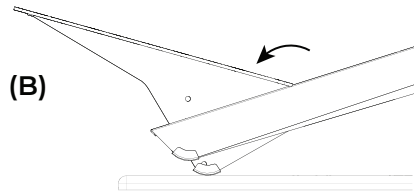

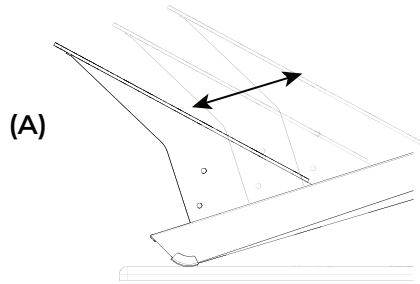

Place higher or lower according to your height

Place headrest on back cushion

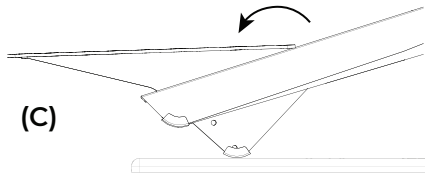

ADJUSTING YOUR COCKPIT

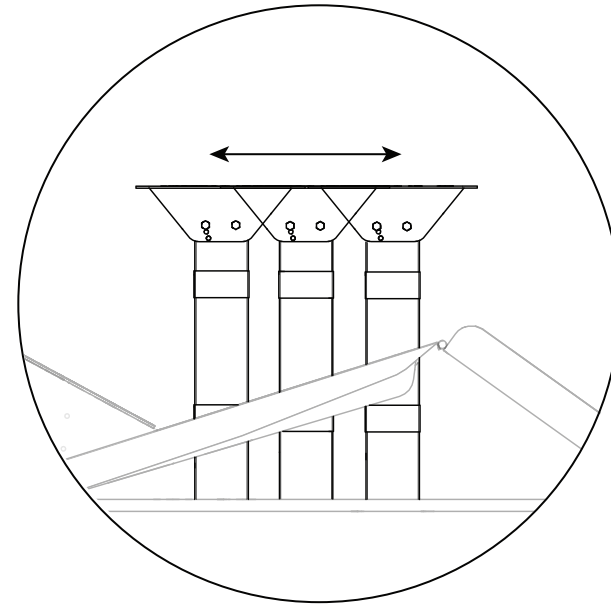

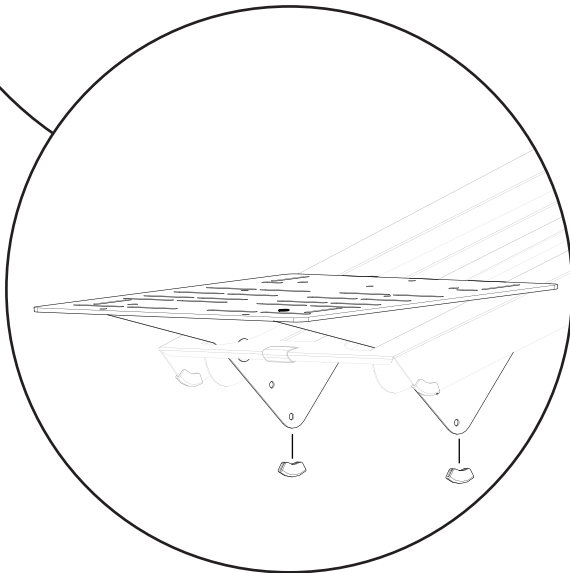

Sit on the **Speed Cockpit**, check wheel and pedals distance and move components according to your preference.

PEDALS MOUNT

Move pedals mount closer or further from you (A) and adjust inclination (B) (C).

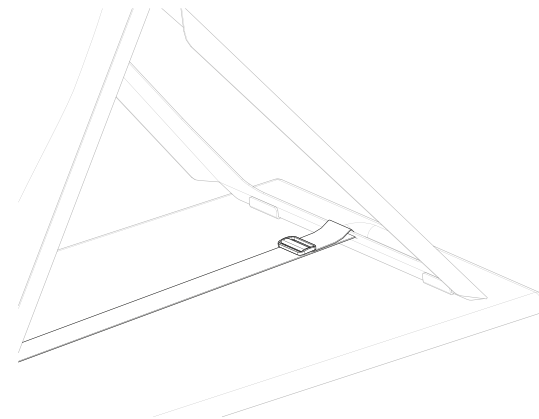

If support triangles are lower than chair chassis, transfer rubber buffers to them.

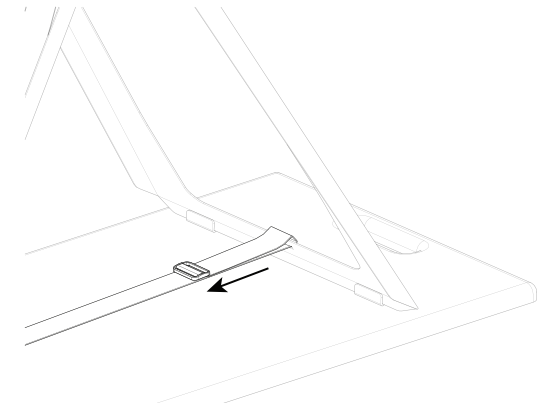

WHEEL MOUNT

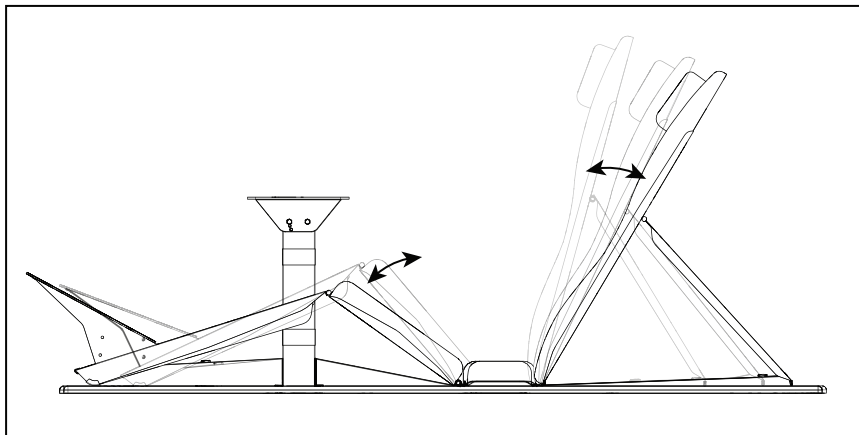

Move wheel mount closer or further from you for a comfortable driving position.

DRIVING POSITION

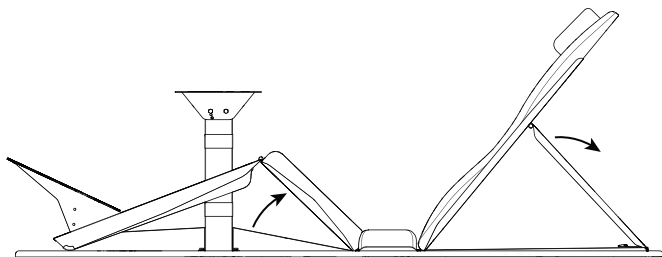

Move sliders closer or further to adjust inclination of your back and legs.

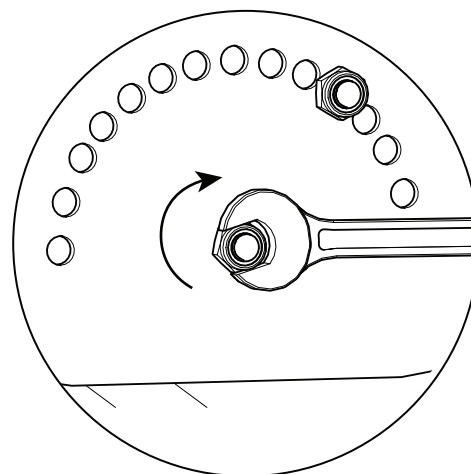

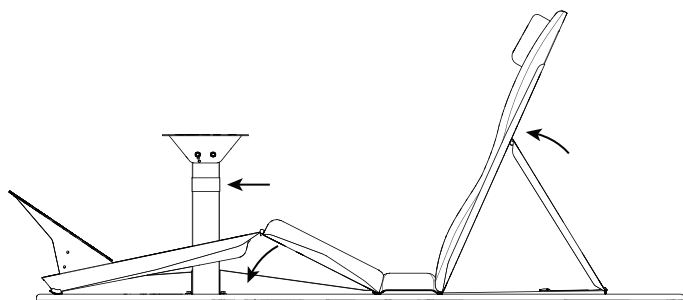

FORMULA

For a formula position, recline back and bring legs closer to your body.

GT

For a GT position bring back support forward and legs down, if necessary, move wheel away from you.

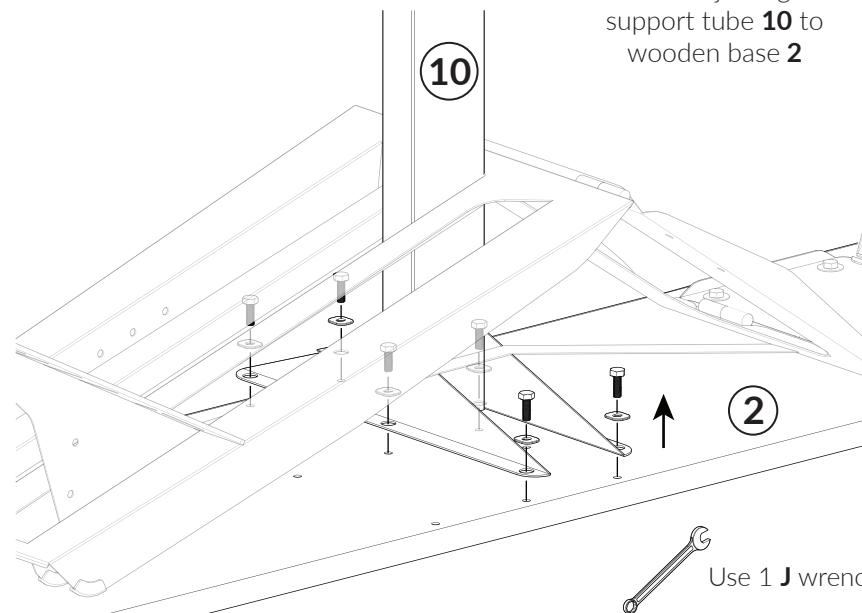

10. IMPORTANT

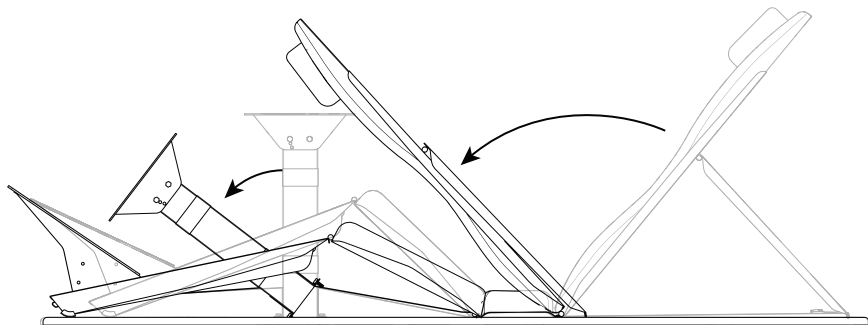

After choosing the right position for you, check and tighten all bolts with the wrenches to secure every piece.

FOLDING THE SPEED COCKPIT

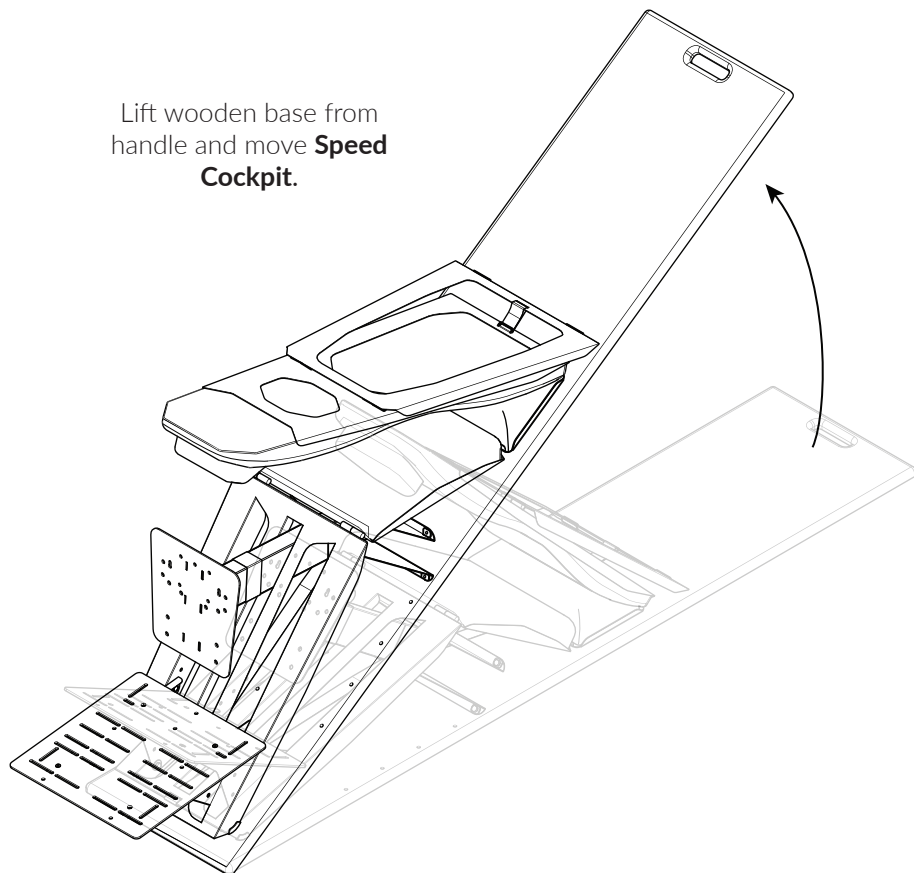

Loosen bolts joining wheel support tube **10** to wooden base **2**

Tilt wheel mount and back support forward.

Lift wooden base from handle and move **Speed Cockpit**.

THE FRENCHIE CO.

WELCOME TO THE FRENCHIE FAMILY!

Thank you for choosing the **Speed Cockpit** to improve your sim racing experience. We are thrilled to have you on board this project so that you can race comfortably and in style.
