

## HOW TO

### MAKE YOUR OWN

## MOTHERS DAY CARD

- 1 Get your favourite colouring, pens or pencils and colour in the flowers on the front of your card as you wish.
- 2 Next apply a generous amount of pritt stick to the white circle on the front, stick the base of your largest cupcake case centrally over the glued white circle.
- 3 Get your medium sized cupcake case and apply pritt stick to the base of it, stick it in the middle of the large paper case you glued in step 1.
- 4 Now get your smallest paper case and stick it in the middle of the medium sized one.

## CRAFT + CRUMB

- 5 With the help of an adult, carefully cut out the 3 hearts along the grey outlines. These form the centre of your flower, apply pritt stick to the back of the hearts and stick in the centre of the smallest paper case, to look like the image here.
- 6 Finally, write your message for mum on the inside of the card and don't forget to fill your name in on the back too. That's it **YOU'RE DONE!!!**

CUT OUT FOR CENTRE OF FLOWER

## BAKING MADE EASY

CRAFTANDCRUMB.COM

CUTS: SOLID LINE

GLUE: LIGHT BLUE

### SAFETY TIP

We recommend parents  
do the cutting!  
Keep scissors away  
from little hands!
