Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days.

Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Castle.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Capricorn

Capricorn is a feet-on-the-ground, eye-on-the-prize sign. Those with Sun in Capricorn have a realistic, grounded approach to life that is apparent no matter how dreamy the rest of the birth chart suggests they can be. These people know how to do things--and to get things done.

Some Capricorns naturally turn their backs on what they deem too frivolous. They are very much concerned with what's worthwhile--Capricorns want to do and be something worthwhile. Like their Earth signs relatives, Taurus and Virgo, they need to feel useful and effective in the real world to be satisfied with their lives. But the Capricorn spin on the earth

signs is that Capricorn possesses a stronger need for recognition in a worldly sense. They have a strong sense of society and its framework, and they feel most secure when they feel they're doing their part within that framework.

Capricorns like to pare things down, and they take pleasure in the simple things in life. However, many are attracted to status symbols, and these ones will wear the best clothes (tasteful ones!) and drive quietly impressive cars. Comparing Capricorns to their symbol, the goat, brings up some interesting analogies. Solar Capricorns can see into the future and plan for it. They don't mind taking things slowly, but they absolutely aim to get to the top of the mountain in life! They make their way steadily and sure-footedly, and their strength and singleness of purpose are admirable.

Capricorns can sometimes be lonely, although they rarely let it show. They are often a little reserved--even standoffish. This is generally because they value all things practical, and they'll seldom wear their emotions on their sleeves unless they have a particularly flamboyant Moon sign. This is a sign that is surely the most resourceful of the zodiac. To some, Capricorns come across as unimaginative, but they can be enormously creative when it comes to the material world. They are generally very capable people with a strong sense of tradition and responsibility.

Many Capricorns have mastered the art of making people laugh. Their sense of humor can be of the deadpan variety--they're generally excellent at keeping a straight face. They can be bitingly sarcastic, too. Capricorns are not known for taking too many risks in life. They value the beaten track and things "tried and true." This is not to say they are stick-in-the-muds -- they simply value the hard work laid down by those who've been around before them.

Turn to your Capricorn friends for help when you need to really get things done. They'll have practical advice, and they'll help you organize and manage your life a little better. Capricorns are generally good with their "word," dependable, and rather loyal people.

Short description:

They are honest, reserved, circumspect, honorable, and strong-willed. Quietly ambitious within the realms of the possible, they like and take on responsibility. They can work in the social domain.

Possible issues: a sometimes bitter and mistrustful mind.

Capricorn with ascendant Aquarius

Sun in XI: The Sun is in the eleventh house

You are a humanitarian who aims to treat everyone as equals. You seek to be unique and original and do your best to avoid bias and prejudice. Social status is less important to you

than belonging to a group of diverse personalities. Your identity, in fact, is somehow linked to a larger unit than yourself. You have high hopes and goals and tend to look at life in terms of opportunities. You have magnetic appeal, as people sense your broad tolerance and openness. The friendships you establish are crucial to your development. If you identify too much with your friendships and your friendliness, you may become too impersonal and alienate those who would like to get close to you. You are a leader in groups and people look up to you.

Key points:

A successful career thanks to the support of patrons, friends, or relations. They need to be engaged and intrigued. They are idealistic, socially concerned, hopeful, and interesting.

123 Conjunction between the Sun and Mercury

Because your ego and mind are usually on the same page, you possess abundant mental energy. You are always in a position to think about what you want, and in many ways, this is an interruption of the will. You are highly intelligent with a great drive to communicate with others. You invest a lot of pride in your intellectual capacities. You may not always listen as well as you speak, however, because you're too busy thinking about what to say next! But you are very curious, and although you enjoy expressing yourself, you usually don't dominate conversations completely.

Regarding studying or learning, you are better off reading the material than listening to a teacher. These traits come from a strong need to actively participate in communications. It is tough for you to listen passively and absorb information.

Your opinions are usually strong, and you are an independent thinker. You tend to be proud of your ideas and thoughts and might easily get a bruised ego if you are not "heard" or if your opinions are pushed aside, ignored, or criticized. You are expressive and possibly a very animated speaker. You are also very witty; others enjoy your playful and sometimes mischievous sense of humor.

Key traits: They are verbal, intelligent, observant, and sometimes nervous or wired.

186 Conjunction between the Sun and Neptune

There is an unmistakably dreamy, inspired, and sensitive side to you. A marked appreciation for music and the arts is present. The connection of Neptune with the Sun, which represents the ego and the will, certainly softens some of the hard edges that might be found elsewhere in the chart, adding a sensitive and spiritual dimension to your personality.

You are naturally compassionate. It is so completely natural for you to accept that there is more to the world than what's before your eyes that you absent-mindedly presume everyone must be spiritually inclined. Of course, you come to realize that this is not the case at some

early point in your life.

Your attraction to spirituality and metaphysical subjects is usually marked. This aspect favors writers, artists, and musicians. You are sensitive to those suffering, although you are not usually taken advantage of.

You are humanitarian and may have a special connection with animals. If other aspects and positions in the chart support it, you are not one to dominate others or assert yourself to the point of brashness. You have a fertile imagination, are full of inspiration, and are very emotional - all qualities you could use successfully on the professional level.

Key traits: They are naturally and genuinely empathetic, compassionate, and intuitive. Their observations and insights are unique and fascinating, making them an original and helpful guide. They have a gentle nature that picks up on subtle cues from their environment.

90 Sextile between the Sun and Pluto

You have much sexual vitality and passion. It's easy and natural for you to find a passion, pursue it, and focus on a goal.

Not much scares you! You enjoy and embrace growth, especially of the psychological kind. You love a good mystery, and you are adept at solving it.

You readily assign meaning to what others might consider "ordinary" events. You look for symbols and read between the lines in almost any situation.

Your physical vitality is generally strong, and your body is usually able to heal quickly. You are not afraid to get your hands dirty, and you are usually quick to help others--not only with mundane tasks but also on a spiritual or psychological level.

Your insight is sharp and sometimes awe-inspiring. You are perceptive and not easily rattled or surprised in life. You are not a do-gooder, nor are you a law-breaker. However, you are not afraid of the "dark side" of human nature, and you will bend the rules from time to time if you feel the need to do so.

You take particular pleasure in growth and life's lessons. You are not fond of superficiality and are generally the first to spot pretense of any kind. You are passionate and can be intense. You have a hunger to experience more than just an "ordinary" life, and you can be quite ambitious. Some people with this aspect are perfectionists, demanding much from themselves and reasonable effort and honesty from others.

Key traits: They are creative, ambitious, and ready to transform or improve matters. They benefit from their willingness to improve, reform, and change. They have determination and willpower and can readily turn around a situation.

57 Sextile between the Sun and Lilith

They are fundamentally comfortable with the darker side of their nature. A student of human nature, they are observant, incisive, unique, unusual, and fascinating.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Libra

People with the Moon in Libra are friendly, warm, tasteful, tactful, and balanced. Lunar Librans feel safe and secure when they are in a partnership. They seem to always want someone tag along with them wherever they go -- even if it is to the corner store. They find strength and reinforcement in and through others.

People with this Moon position are quite charming. They can be very attractive to be around, and are often given to flirtatiousness. Rarely directly aggressive, they win your heart with their gentle and refined ways.

Moon in Libra people strongly need companionship. Without someone to share their lives with, they feel utterly incomplete. This is why many people with this Moon get involved in marriages or living-together arrangements quite young. Because this drive for harmony, peace, and sharing is so powerful, Lunar Librans are apt to do a lot of conceding. They are sympathetic and concerned for others, enjoy socializing, and revel in a good debate. Mental rapport with others is critical to them.

Moon in Libra natives can't help but see flaws in their environment and relationships. In fact, anything out of whack will bother them until it's fixed. Although diplomatic with acquaintances, when Moon in Libra natives argue with their long-standing partners, they rarely let up until they win. And, winning an argument is a Libran specialty--in fact, they may not even believe what they are saying but will adopt ideas just to get the last word. Living with Lunar Librans can sometimes feel like you are on trial, and Libra is the expert lawyer. Sometimes, though, Libra is defending you and supporting your point of view. They're tremendously fair and equality-minded, and they will always see the other side of the coin. This ability can leave them on the fence, undecided, even painfully so at times.

Lunar Librans' idealistic outlook and constant striving for the best, most harmonious lifestyle can lead to some discontent. Looking for that one (elusive) perfect way to lead their lives can detract from enjoyment of the moment. However, a Libra Moon also strives for balance and moderation, and once they discover that sweet spot, they're smooth, delightful, and extraordinarily kind and considerate.

Short description:

They are sociable and popular. Good judgment, they are intelligent and reasonable, liking social pleasures. Agreeable and fair. They value feedback.

Potential issues: instability in loving relationships, wavering, may give too much weight to the views of others and public opinion.

Moon in VII: The Moon is in the seventh house

Partnership is important for them, for better or for worse. They work well in business relationships, especially partnerships, and can be a great mediator, counselor, and harmonizer. They are balanced, the voice of reason, peace-loving, fair, and just.

You are drawn to partnerships and prefer to have a companion for emotional support. You are not a person who would happily take in a movie by yourself or dine alone, for example. A partner awakens feelings in you that you may have never known you had, and you seem to need a partner to learn about your own needs and feelings. Emotional fulfillment is sought through relationships, but if the Moon is challenged, you may have many relationships, one after another, each time believing that this is "the one." Taking time between relationships is hard for you but quite necessary, as you tend to jump into relationships out of fear of being alone. Or, you draw highly emotional people into your life as partners.

You are very adaptable to others' needs and usually quite likable. Be careful not to become overly dependent on a partner or assume that a partner will treat you the same way you do them.

You have a strong eye for balance and harmony and fine taste. You're a supportive, well-liked friend and partner.

-84 Square between the Moon and Mercury

There is a conflict here between the head and the heart. Your emotions tell you one thing and your mind tells you something else. The result is a see-saw effect: you can be emotional to the point of irrationality at one moment, and logical the next. How to blend the head and the heart is a constant struggle for you, usually because you have a tendency to resist blending them! You love to chat, enjoy story-telling and writing/poetry, sometimes enjoy bending the truth, and you possess a sparkling wit! You are animated when you speak, and have a sense of humor that others appreciate simply because it's very imaginative. You may be especially adept at satire. People can usually read your mood by how much you're talking. When nervous or excitable, you talk up a storm. Moodiness is a characteristic, definitely, and an especially subjective nature makes you prone to hypersensitivity. It usually has to do with the fact that you take in so very much from your environment. This is also one of the reasons why you tend to be indecisive. You may swing between irrational and rational

thoughts and feelings. It's pretty much something that takes place "upstairs" in the mind, although others are sure to see the struggle from time to time. You are always interesting, and usually funny. You have a tendency to misrepresent yourself with what you say from time to time, but you're a charming, if a little kooky, friend.

If they are happiest in their own little imaginary world, they can be happy nowhere because they can never find their ideal world on the outside, and this problem can create a lot of change, instability, and disquiet. Must aim to enjoy the moment, the real world more often. They should watch for fibbing, gossip, but sensitivity to criticism, thin-skinned leaves them feeling vulnerable. If the other aspects allow, they can be a very good novelist. Great imagination and observation.

55 Conjunction between the Moon and Mars

You are a passionate person who loves life. Although your emotions are powerful and immediate, your passion is generally controlled and directed. You are a sexual person who nevertheless doesn't get too carried away or controlled by your passions. Because your emotions are strong and you know how to channel them into constructive channels, you don't easily understand such things as "crimes of passion", impulsive behaviors, or emotional excitability in others. You're generally open, accepting, and natural in your sexual expression. You need an emotional connection in order to feel complete on a physical level. You may have an affection and talent for sports, but other factors in the natal chart are necessary to provide the motivation and commitment.

Short description: They are frank, honest, full of vigor and ambition. They are strong-willed and powerful at work. They are a little hard on themselves but perhaps more on others whose capacity for action is not as great or inherent.

57 Sextile between the Moon and Midheaven

They have a strong sense of family, profound feelings, and may especially like children and animals. If there are changes in their professional life, they are most often for the better. There is a sense of forward movement, popularity with those in authority or in the professional life.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Capricorn

Their mind compartmentalizes impressions, and they appreciate structure and order. The mind learns best when it can see practical uses for information. Resourceful, reflective, deep thinker; a fine and vivacious mind. May undertake lengthy studies or, if circumstances do not

allow, will teach themselves. A rational person. Can be pessimistic, skeptical, and sarcastic, possessing a very sharp sense of humor. They notice everything.

Mercury in XI: Mercury is in the eleventh house

They have lots of friends. They like intelligent, cultivated people around them with whom they can enjoy verbal sparring. They like debates, interminable discussions. Often have friends who are younger, or friends come and go.

You are endlessly curious about people, group interactions, community affairs, trends, and teams. You are attracted to people who bring new ideas into your experience, and who have something novel to contribute on an intellectual level. You are very forward-looking and fair-minded. Fair play, impartiality, and unselfishness are important ideals for you. There can be many changes or fluctuations in your personal wishes, dreams, plans, and ideals. You might attract friends who come and go, or who are dishonest or duplicitous.

237 Sextile between Mercury - Saturn

They are precise or strive to be mentally organized. They are able to study, concentrate, and focus, and often has the patience to work towards a goal slowly but surely. They may take time to get communications "just so" and prefer step by step directions. They respect tradition and rules, preferring a sense of order.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Scorpio

Venus in Scorpio people attract others with their intensity and willingness to commit. They have a strong and concentrated manner which suggests their feelings run deep. Their actions in love tend to promise deep commitment and sexual pleasure, even if they are not telling you this directly. Their appeal lies in their focus on you, and their dedication. Venus in Scorpio seems fearless when it comes to intimacy. Potential lovers get the feeling that Venus in Scorpio will never stray, that they are intensely loyal to the one they love. They possess you, and somehow make it seem attractive to be possessed.

Venus in Scorpio natives give you their complete attention. These people are very focused on their partners. Depending on your personality, you may find this unnerving or entirely flattering. They have a strong need to control their partner, although this won't be immediately apparent, and they may not ever admit to this. Their body-and-soul love and commitment can be so intense that it eclipses fun and makes loving them a very heavy experience. Their emotion and intensity may seem overdone to those looking for a more lighthearted relationship. These people take things to extremes, and can be very provocative. Although they want to explore all of your nooks and crannies, they won't always

be forthcoming with their own. When you've upset these lovers, you'll know it. Depending on the moment, Venus in Scorpio will shoot you one of the most piercing glares around, or totally blow up. Whichever style they choose, a slighted Scorpio lover is not a pretty sight. These people can be jealous of all of your attachments, but few will admit it. They're not afraid of being underhanded in matters of the heart, and they are experts at cutting through all the fluff and seeing you for what you are. Still, you may find their conclusions about you seem skewed and mistrustful.

Pleasing Venus in Scorpio involves demonstrating your complete commitment and loyalty to them. Appreciate their guts when it comes to love and intimacy -- they're proud of their courage in these matters. If you can, and they're deserving, relinquish some of the control in the relationship. Let them feel they own you, without taking it to extremes. Remember, though, that some Venus in Scorpio lovers can and will take advantage of you on a subtle level, if only to keep you all to themselves. Let them have their secrets and their silences.

Short description: Sensual and passionate. Passions run hot and cold. Full of ardor and desire where the partner needs to be able to match their level. Can be jealous and possessive. If disappointed or deceived in love, they can become bitter. Usually very loyal.

Venus in IX: Venus is in the ninth house

Could find love abroad or partner with a foreigner. Refined mind, they like the Arts, is carried away by beautiful things. They are very happy abroad.

You are attracted to, or you tend to attract, people of different cultural backgrounds. You are attracted to a partner with a sense of adventure. You are not especially clingy, and you expect a certain amount of freedom in a partnership. You want to feel like you are growing as an individual, and you won't be happy in a relationship that is restrictive or confining. In fact, you have a great love for the feeling of freedom or limitlessness. Your hips and thighs may be especially attractive! You appreciate a lover who is enthusiastic and not afraid to have a good time (with you!). You aspire to high ideals in love, but some of you might pursue sensations in love rather than true or deep feelings and attachment. Beware of a tendency for dissatisfaction with what you have, as the tendency to think that the "grass is greener" elsewhere can keep you from enjoying or developing what you have.

-18 Square between Venus - Ascendant

They may go to excess with their pleasures, frequents doubtful company, may come across differently than expected. They are very spendthrift, but spreads their money around their circle. Their friends may be more self-interested than sincere.

Mars

Mars represents the desire for action and physical energy.

Mars is in Libra

Mars in Libra natives often reflect about things before they act. Decisiveness is not their strong point, but they do, eventually, get things done. Many people with this position procrastinate, generally because they feel the need to weigh all of the alternatives before taking action.

Life isn't always fair, as Mars in Scorpio would say, but Mars in Libra will seldom accept this notion. These natives can easily get caught up in defending themselves and others. Although their overall goal is to live peacefully, they stir others up with their desire to balance everything. Still, they always play innocent when they are challenged, and can generally charm the birds out of the trees to win your favor. Passive-aggressiveness is practically the hallmark of this position. They don't want to look like they are ever being mean or unfair, but aggression has to go somewhere! Too often, this results in sneaky behavior and subterfuge. On the other hand, some Mars in Libra people turn the Mars energy into action, and they fight for Libran justice and fairness in the world. On the up side, Mars in Libra people are adept at predicting when problems and discord will occur well in advance. They know how to compromise and are excellent at conflict management.

Mars in VIII: Mars is in the eighth house

They like sports and the outdoor life. They are successful professionally and emotionally. They may have many children or projects and ventures.

They are honest and forthright in their dealings with others, and They tends to trust others readily. They can be a bit careless about spending money, however, and this is probably because they are so eternally optimistic that there will always be plenty around. The possibility of failure does not enter their mind, although success itself is not as important to them as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

19 Conjunction between Mars - Pluto

They are ambitious with a great capacity for work and effort, self-confidence, and determination. Will stick it out to the end with their plans.

You are committed, determined, and passionate. For you, it's all or nothing, and you are baffled by, and possibly impatient with, others who do things only halfway or half-heartedly. great ambition, which sometimes can be taken to obsessive levels. They may always want to check work already done, as they are terrified of being less than perfect.

45 Sextile between Neptune - Pluto

They are perceptive and able to see layers to a situation. They are naturally drawn to learning what makes themselves and others tick.

19 Sextile between Neptune - Lilith

Love can dominate their life. They live their love life to the fullest, and can be very passionate. Their partner may have problems on the professional level, but they are always there to give support. If the partner loses their job and their rhythm of life has to change, they accept this. They are a lover, and faithful - the most important thing is that they love each other.

35 Sextile between Neptune - Ascendant

They can have unusual relationships. They are easily influenced, very sensitive and emotional.

Pluto

Pluto represents transformations, mutations, and elimination.

Pluto is in Scorpio

Fear of betrayal. Sensual and passionate.

15 Trine between Pluto - Lilith

They may lead a double life. They may have a secret love affair while having a good relationship with their partner. Most with this aspect, however, are highly perceptive and can keep a secret. Alternative views of relationships are likely.

9 Trine between Pluto - Ascendant

They have willpower and ambition, and almost always prefer to have their own way.

Lilith

Black Moon Lilith represents our darker, deeper natures that may be repressed or buried.

Lilith in Pisces

They may have felt ashamed or off for being needy, compassionate, or wishy-washy, or for their spiritual side, and this person can feel uncomfortable or annoyed with people who resist labels, who are not very assertive or ready to take the lead. Denying these very human traits

in themselves can lead to extreme behaviors. Self-acceptance and integration of these traits in moderation can be empowering.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

North Node in Gemini

They have brilliant ideas and are the first to discover new things. However, they have a tendency to ignore the details and may avoid some responsibilities for fear of becoming too bogged down. Taking on too many activities can keep them from focusing on one or two paths, and this can be to their detriment in the long run.

Another life lesson is to understand the impact of their words. Speaking their truth should be done mindfully or else it may undermine their growth at times. A balance should be sought. They can be an excellent teacher and hold far more meaningful and intelligent exchanges with others in so doing. By learning to slow down and take care of business and to live in the present, they are likely to achieve far more happiness and a wonderful sense of inner balance. Qualities to develop: clarification, listening skills, attention to detail.

North Node in IV: North Node in the Fourth House

Their path is to allow themselves to be vulnerable, and from time to time, release the need to feel in control and on top of things. Once they do let others in, their life improves. Fixing their home life can enhance their career. Qualities to develop: nurturing and trust, tenderness, willingness to be vulnerable or to accept support.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Capricorn with ascendant Aquarius

Ascendant is Aquarius

How unique and original Aquarius rising natives come across! These individuals are just that -- individuals, and they won't let you forget that fact. Often turned to for advice, these natives possess intellectual poise and savvy. They often are curious, and quite learned, in both science and metaphysics--anything that involves advancement of the human race holds much appeal. It's hard to shock an Aquarius rising. They've seen it all, or at least want you to

think they have. In fact, they often enjoy shocking others. Not that they are flamboyant by nature, but they do like to, albeit quietly, get a rise out of others. Some natives born with Aquarius on their Ascendant can be quietly provocative and irreverent. Most people with this Ascendant are quite friendly and likable. Their personality quirks generally go over quite well with others. They generally give others quite a bit of freedom--accepting, as a rule, people from all walks of life as equals. And, their somewhat cool and detached curiosity about all that goes on around them appeals to most.

Curiously, Aquarius rising people can be a little standoffish while also coming across as humanitarian and kind. Often labeled as independent and original children, Aquarius rising natives often feel a little "different" or "special" throughout life. They often feel like they are on the outside looking in, and their ability to observe and deduce is often uncanny. They're also adept at getting things to work, even when the parts that make up the whole seem like a puzzle with unusual pieces--especially when it comes to groups of people. This sets them apart as managers and team leaders. The Ascendant often reveals physical mannerisms and even choice of dress, as it shows how people present themselves to the world. With Aquarius here, natives sometimes have a quirkiness to their manner, and some dress in a slightly offbeat manner--not enough to make them stand out like a sore thumb, but just enough to express their original temperament.

Because these people seem so open to new ideas, it may be surprising when you encounter their decidedly stubborn streak. Aquarius is a fixed sign, after all. The ascendant sign shows how individuals react to new situations, and with Aquarius rising, there can be a resistance to change that seems to belie the native's generally progressive nature. There's a distinct inflexibility with Aquarian rising people, and, sometimes, a tendency to want to force their opinions on others. With their eye to the future of mankind as a whole, some people born with an Aquarius Ascendant overlook the more personal needs of the people closest to them. They are often attracted to partners who possess self-confidence and ardor.
