**MIRKA**

**Best Abrasives**

# Mirka 2+1 Warranty

Mirka offer a 2-year warranty as standard, with an additional year given subject to the tool being registered within 30 days of purchase on the Mirka website or myMirka app.

Receive an extra year warranty free of charge, and should you need to use the Mirka Repair Service, the registration will make it an easier and faster process.

Connect your Bluetooth enabled Mirka tool with the myMirka app to see information about the tool.

You can measure vibrations, track your daily vibration exposure and view the tool's battery level and health.

## Mirka = a dust free workshop

# Feel the power

Mirka's power tools and abrasives are highly regarded by Panel Beaters and body shop professionals across Australia.

Removing paint to a bare metal surface, sanding body filler and feathering paint edges are simply, efficiently and professionally done using Mirka's long-lasting and effective abrasives together with their ergonomic and easy-to use Mirka power tools.

# Maximise performance

The Abrasives designed by Mirka take control of the entire surface finishing process. It is not only about sanding, but optimized sanding, maximising performance at every stage.

You can take control of the paint shop and modernise its every aspect. It is a combination that has Mirka innovation written all over it: high-tech abrasives work together to make everything easier, not more complicated.

# The perfect finish

In manufacturing and refinishing, factory production and restoration, polishing is the final stage in reaching the best possible finish.

A new coat of paint, with clearcoat or lacquer on top, reaches the perfect finish after each preceding step. A polished Mirka finish is a combination of using ergonomic and light power tools together with effective Polarshine polishing compounds and quality supplies.

# A cleaner & healthier workshop

**1230 M AFC Dust Extractor**  
SKU: 8999228111

Today, health and safety issues are becoming increasingly important. Sanders and abrasives are made more and more efficient, with focus on dust-free applications.

This development places higher requirements on the dust extractors. Mirka's range of dust extractors and accessories meet the demands of the market and of the health and safety authorities.
