

Floor Sanding

Learn more about floor sanding and download this brochure.

Dust-free sanding

Mirka electric sanders are brushless, powerful, lightweight and have low vibration, making them a popular choice for many in the flooring industry.

When used with dust-free abrasives and dust extractors, these sanders enable a flawless dust-free environment.

Long-lasting & fast cutting

By using on-tool dust extraction and pad, dust can be safely removed from the working surface without it ending up in the air, on your skin, in your lungs or on furniture.
