

Light Coloured Epoxy

How to finish an epoxy table

Mirka Deros 650CV
150mm, 5mm orbit

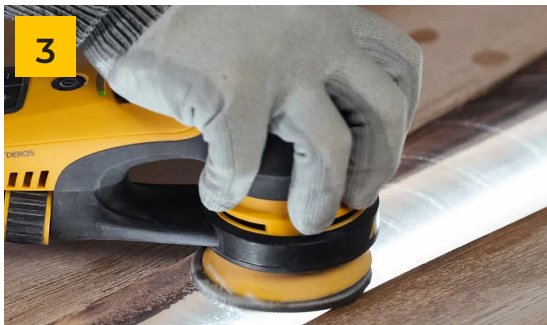

Mirka ARP-B 300NV
77mm, Rotary

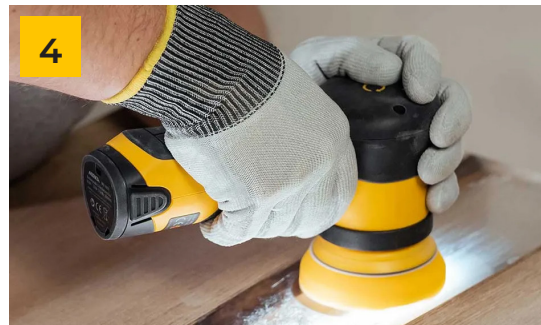

1 Sand the whole table using Galaxy 150mm Sanding Discs in 120 grit, then 180 grit using the Mirka Deros Random Orbital Sander with 5mm Orbit.

2 Sand the resin section using Galaxy 320, 600, 1000 and lastly 1500 grit.

3 Wet sand the resin using Abralon Foam Sanding Discs in 2000 grit, followed by 3000 grit.

4 Polish the resin using the ARP-B 300NV Cordless Polisher with a Yellow Waffle Pad and Polarshine 10.

5 Finish the surface with an oil of your choosing.
