# Mirka 2+1 Warranty

Mirka offer a 2-year warranty as standard, with an additional year given subject to the tool being registered within 30 days of purchase on the Mirka website or myMirka app.

Receive an extra year warranty free of charge, and should you need to use the Mirka Repair Service, the registration will make it an easier and faster process.

Connect your Bluetooth enabled Mirka tool with the myMirka app to see information about the tool.

You can measure vibrations, track your daily vibration exposure and view the tool's battery level and health.

## Mirka = a dust free workshop

# Abrasives, tools & dust extraction

Hull building is where it all begins. When sanding fibreglass plug and mould, our net and multihole sanding abrasives, ergonomic sanders and effective dust extraction improve your working conditions, making work safer, faster, and more efficient.

Depending on the application, Mirka has suitable pneumatic and electric sanders, each well matched with the superior cut of Abranet Ace, Abranet Ace HD net and Galaxy abrasives.

5 PACK: 8999100211

# The perfect finish

When it is finishing time, Mirka's range of abrasives gives you perfect results. To ensure the best surface preparation prior to polishing, combine the abrasives with Mirka electric tools for an efficient workflow.

Galaxy is the perfect choice for sanding. If you prefer a foam abrasive, wet sanding with Abralon is ideal for finishing prior to polishing. Its patented flexible construction creates a smooth finish while minimising the risk of pressure marks.

**Deros 650CV - 150mm Sander, 5mm Orbit**  
SKU: MID6502022AN

**AROP-B Cordless Polisher - 77mm, 12mm Orbit**

**Dust Extractor Hose - 4m**  
SKU: MIN6519411N

# Long-lasting protection

It is easy to condition a gel coat finish with Mirka solutions. Use Abralon for machine sanding the surface, work with Polarshine to compound, to remove swirls and to polish, and finish the job by protecting the surface.

**Deros 650CV - 150mm Sander, 5mm Orbit**

SKU: MID6502022AN

**ARP-B Cordless Rotary Polisher - 77mm**

SKU: 8991000311AN

➤ **DEEP CLEANING**

Use Deros Sander with Abralon

➤ **COMPOUNDING / CLEANING**

Use Polarshine 35 or 45 + Lambswool Pro Pad

➤ **SWIRL REMOVAL / POLISHING**

Use Polarshine 10 + Yellow Waffle Pad

➤ **SURFACE PROTECTION**

Polarshine Liquid Wax or Polarshine 3 Wax

## BOAT POLISHING

Working with hard surfaces that will be exposed to tough conditions, you need professional polishing compounds that give long-lasting results. Water-based and silicone-free, Polarshine doesn't rely on solvents or fillers. Coarse and fast-cutting Polarshine 45 removes scratches and heavy oxidation easily from hard surfaces. Can be used as one-step polishing on lighter colours. For darker colours, we recommend to finish with Polarshine 10.

# Remove scratches

Acrylic and glass windows can accumulate scratches and small defects. Instead of replacing, refurbish: blemishes can easily be removed with sanding and polishing using Mirka products. Depending on the depth of the scratches and quality of the material, Mirka offers various solutions designed to give you the perfect finish.

## SANDING

### Deep scratches

Start with 500 - 800 grit (Abranet Ace)  
- 1000 - 3000 grit (Abralon)

### Minor scratches

Start with 1000 - 3000 grit (Abralon)

**Deros 650CV - 150mm Sander, 5mm Orbit**  
SKU: MID6502022AN

**Abranet Ace**

**Abralon**

## POLISHING

**ARP-B Cordless Rotary Polisher - 77mm**  
SKU: 8991000311AN

**Lambswool Polishing Pro Pad**

**Polarshine 35**

OR

**Yellow Waffle Polishing Pad**

**Polarshine 10**

## TEAK DECK MAINTENANCE

When working on teak decks, it is essential to be able to work dust-free. Wood dust exposure is especially harmful to the lungs. Use Mirka's dust-free sanding solutions, combining industry pioneering net abrasives with our ergonomic tools and efficient dust extractors.

Depending on the condition of the teak deck and the severity of the damage, Abranet Ace or Galaxy can be used with grits ranging from P80 to P120 to P180.

**Deros 650CV - 150mm Sander, 5mm Orbit**  
SKU: MID6502022AN

**Abranet Ace**

Superior cut & performance with net construction & ceramic grains

**Galaxy**

Self-sharpening with multifit hole configuration

**1230 M AFC Dust Extractor**  
SKU: 8999228111

# Dust-free is best

When sanding below the waterline, we recommend our dust-free sanding solutions – whether you're working on new or old fibreglass surfaces. The Abranet Ace HD resists high wear and tear and is ideal for heavy-duty applications: combine it with an electric rotating machine fitted with a dust suction hood.

Mirka's Multifit, self generating grain abrasive - Galaxy delivers remarkable results, especially on hard surfaces. Its precision coating won't get clogged as it practically repels dust and its grains stay sharp.

**Deros 650CV - 150mm Sander, 5mm Orbit**  
SKU: MID6502022AN

**Abranet Ace HD**

**Galaxy**

**1230 M AFC Dust Extractor**
