

This checklist will hopefully help you keep track of what ornaments you currently have from Cedar + Pearl! I've included all of the current designs, and a handful of designs that I've made over the years that I no longer offer. Use this list to track what you own, what you're purchasing, or what you've gifted to others. If you're unsure of a name, seach for it on our website, or email us for confirmation. I've also included a note area in case there are designs not listed here.

Please reach out with feedback as I'd like this document to become a helpful resource that I can provide each year!
