WHAT'S HAPPENING

KNITTING YARN

A new shipment of Noro yarns has arrived. Along with a new colour of Silk Garden and Silk Garden Lite, we also have a new yarn called Kochoran, which is a wool/silk/angora blend. This is a 12-ply yarn, soft and luxurious.

To complement this, we have a range of new knitting books, and limited copies of the new Noro magazine.

IN BRIEF

NEW FACE

We hope you like our newsletter 'make-over', managed while in the throes of our stocktake, which is almost done.

A wonderful time was had by all at the Bendigo Sheep and Wool Show this year; we met lots of interesting people. See the photo gallery for some images of this event.

And we're happy to announce that sewing classes will resume at the end of September, as we have engaged a new teacher. Read on for an introduction.

A new selection of wool and wool blend fabrics are now available. These include a light wool blend boucle in raspberry red (above left); a fine lightweight cashmere; a rich, cerulean blue suiting (below left); a taupe wool suitable for pants; and a green Italian herringbone wool.
