

12w Dimmable Epistar SMD LED Downlight Kit 90mm cut out with 5 years warranty- In-Built Driver

Product Description

Our newly launched Integrated Driverless Technology LED Downlight has been designed to give you the best possible lighting experience whilst at the same time providing you with a cost effective, environmentally friendly product. This downlight comes included with its own driver, and uses mains standard input voltage. This is a maintenance free light fitting that once installed will give you 50,000 hours of money and energy savings and eliminates the need to replace any bulbs. It will save you hundreds of dollars on your electricity bill and will look great in any room.

Also the downlight uses high brightness SMD LED as light source, which is super energy efficient and includes high light output of 1000-1100Lm. Also with a beam angle of 120°, it will illuminate a larger area than some of our lower-wattage integrated downlights, often being used as the primary light source. Including 1.2 meters of double insulated cable & Australian Moulded Plug, easy for installation. What's more, this downlight dimming range: from 10% to 100%, non flicker, is suitable for more than 95% local Australia dimmer, such as Clipsal/ Schneider/ HPM/ Legrand etc.

Specification

- Model No.: GS-DL3F-12W
- Power: 12W
- Voltage: AC200-240V
- LED Chip Brand: EPISTAR
- Light Source: 5730 SMD LED
- LED Qty: 18PCS
- Lumens: 1000-1100lm
- Luminous Efficiency: ≥90-100lm/W
- CRI: ≥80
- PF: ≥0.95
- Size: Φ110*55mm
- Cutout: 90mm
- Temp Colour : 2700-6000K available
- Beam Angle: 120 Degrees
- IP40 Rated
- Working Time: ≥50,000H
- Material: Aluminum+PC
- White frame
- Warranty: 5 Years Replacement
- Includes In-Built driver and 1.2m AUS standard plug and flex.
