IN STALLING THE TOOL AND REFRESHMENT HOLDER (7)

Please note that your instruction manual does not include the instructions on how to install the tool and refreshment holder (7) onto the upper handle bar (1). This assembly should be undertaken before assembling the rest of your lawn mower.

1. The 3 x tapping screws for this assembly can be found in the self-sealing plastic bag (Fig A).
2. Place the tool and refreshment holder (7) over the upper handle bars (1) and align the holes as shown in Fig B. (Fig B).
3. Using the 3 x tapping screws, secure the tool and refreshment holder (7) to the upper handle bars by inserting the screws through the aligned holes using a philips head screwdriver (supplied), and rotating in a clockwise direction until secured. (Fig C).
4. Proceed with assembly of the rest of the lawn mower ensuring that the assembly of the tool and refreshment holder (7), and the orientation of the key start battery system charging cable (6) is as per Fig A in the manual.
