Beartooth's Recoil Pad Kit is the best way to eliminate hard-hitting recoil and properly fit your gun. The stretchy slip-on neoprene cover fits nearly all gunstock sizes and works excellent with both shotguns and rifles. Simply place foam into sleeve and pull on – no gunsmithing or drilling. By reducing recoil, Beartooth's RPK can assist in eliminating shoulder fatigue while improving your shooting accuracy.

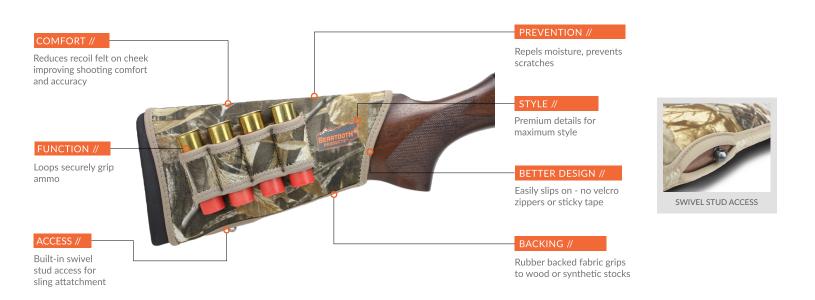

Protect your gunstock from the perils of the field while adding maximum shooting comfort with Beartooth's StockGuard. Superior to nylon ammo carries which slide around, the StockGuard's rubber backing ensures the cover and your ammo stay in place at all times.
