

# SAFETY DATA SHEET

## TRININC H12, Part A

### SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

#### 1.1 Product identifier

**Product Name:** TRININC H12

**Product Codes(s):** TRININC H12, Part A

**Synonyms:** Aqueous polyurethane dispersion

**REACH Registration:** No data available

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**General Use:** Coating for concrete

**Uses advised against:** No uses advised against

#### 1.3 Details of the supplier and of the safety data sheet

**Manufacturer/Distributor**

CoverTec Products LLC.

10857 NW 50<sup>th</sup> Street.

Sunrise, FL 33351

754-223-2465

#### 1.4 Emergency telephone number: 800-535-5053 (Infotrac)

### SECTION 2 - HAZARDS IDENTIFICATION

#### 2.1 Classification of substance or mixture

**Product definition:** Mixture

**Classification (Regulation (EC) No 1272/2008)**

Skin Irritation - Category 2 [H315]

Eye Irritation - Category 2A [H319]

Specific Target Organ Toxicity, Single Exposure - Category 3; STOT RE 3 [H335]

#### 2.2 Label Elements

**Labeling (Regulation (EC) No 1272/2008)**

**Hazard Symbols**

GHS07

**Signal Word:**

Warning

**Hazard Statement(s):**

H315 - Causes skin irritation

H319 - Causes serious eye irritation

H335 - May cause respiratory irritation

**Precautionary Statements:**

**[Prevention]**

P261 - Avoid breathing dust, fumes and vapors.

P264 - Wash hands and other skin areas exposed to material thoroughly after handling.

P271 - Use only outdoors or in a well-ventilated area.

P280 - Wear protective gloves, protective clothing and eye protection.

**[Response]**

P302 + P352 - IF ON SKIN: Wash with plenty of soap and water.

P362 - Take off contaminated clothing and wash before reuse.

P332 + P313 - If skin irritation occurs: Get medical attention.

P304 + P340 + P312 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor if the victim feels unwell.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 - If eye irritation persists: Get medical attention.

P321 - Specific treatment: Call a POISON CENTER or doctor, or refer to Section 4 of this SDS.

**[Storage]**

P405 - Store locked up.

P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.

**[Disposal]**

P501 - Dispose of contents in accordance with national and local regulations.

### SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substances

Not applicable

#### 3.2 Mixtures

**Chemical characterization (preparation)**

% by Weight	Ingredient	CAS Number	EC Number	Annex Number	EC Classification
10-20	Water	7732-18-5	-----	-----	-----

## Chemical characterization (preparation) - continued

% by Weight	Ingredient	CAS Number	EC Number	Annex Number	EC Classification
25 -35	Acrylic Polymer	Trade Secret	-----	-----	-----
50 -80	Polyurethane Resin	Trade Secret	-----	-----	-----

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to the health or the environment and hence require reporting in this section.

## SECTION 4 - FIRST AID MEASURES

### 4.1 Description of first aid measures

**Inhalation:** If product mist or vapor causes respiratory irritation or distress, move the exposed person to fresh air immediately. If breathing is difficult or irregular, administer oxygen; if respiratory arrest occurs, start artificial respiration by trained personnel. Loosen tight fitting clothing such as a collar, tie, belt or waistband. Seek medical attention immediately.

**Eyes:** Immediately flush eyes with large amounts of water for at least 15 minutes, holding the eyes open with finger tips and occasionally lifting the upper and lower lids. Use lukewarm water if possible. Remove contact lenses, if present and easy to do, after the first 2 minutes and continue rinsing. If eye irritation persists, seek immediate medical attention, preferably from an ophthalmologist.

**Skin:** Flush skin with large amounts of water while removing contaminated clothing and continue rinsing for at least 15 minutes. Use lukewarm water, if possible. Wash contaminated clothing and shoes thoroughly before reuse. If skin irritation persists, if rash develops or if victim feels unwell, seek medical attention. Cured material may be difficult to remove from skin.

**Ingestion:** Rinse mouth thoroughly with water if victim is conscious. Remove dentures, if any. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. To prevent aspiration of swallowed product, lay victim on side the head lower than the waist. If victim feels unwell, seek medical attention.

### 4.2 Most important symptoms and effects, both acute and delayed

#### Potential health symptoms and effects

**Eyes:** Causes eye irritation. Symptoms may include redness, swelling, stinging and tearing.

**Skin:** Causes mild, transient skin irritation. Symptoms include localized redness, itching and discomfort. May cause skin rash in susceptible individuals.

**Inhalation:** Mist or vapor may cause irritation of the nose, throat and respiratory tract. Symptoms may include sore throat, coughing, headache, nausea and shortness of breath.

**Ingestion:** May cause gastrointestinal irritation with nausea, abdominal pain, vomiting and diarrhea. May cause headache and dizziness. Repeated ingestion may be harmful.

**Chronic:** Pre-existing disorders of the skin and respiratory system may be aggravated by exposure to this product. Triethanolamine is a suspected carcinogen (refer to Section 11.2).

### 4.3 Indication of any immediate medical attention and special treatment needed

**Advice to Doctor and Hospital Personnel:** Treat symptomatically and supportively.

## SECTION 5 - FIRE FIGHTING MEASURES

### 5.1 Extinguishable media

**Suitable methods of extinction:** Use dry chemical, carbon dioxide, foam and water spray

**Unsuitable methods of extinction:** None known

### 5.2 Special hazards arising from the substance or mixture

Closed containers may explode due to the buildup of pressure when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent or may be delayed. Obtain medical attention.

### 5.3 Advice for firefighters

Full protective equipment including self-contained breathing apparatus should be used. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion when exposed to extreme heat. If possible, firefighters should control runoff water to prevent environmental contamination.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear appropriate protective clothing designated in Section 8. Remove all sources of ignition. Ventilate the area.

### 6.2 Environmental precautions

Avoid dispersal of spilled material or runoff and prevent contact with soil and entry into drains, sewers or waterways.

### 6.3 Methods and materials for containment and cleaning up

Cover drains and contain spill. Cover with a large quantity of inert absorbent. Do not use combustible material such as saw dust. Shovel or sweep up product and place into an approved container for proper disposal. Clean contaminated area with soap and water.

### 6.4 Reference to other sections

For indications about waste treatment, see Section 13.

## SECTION 7 - HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Observe label precautions. Wear all appropriate protective equipment specified in Section 8. Keep containers closed when not in use.

#### Advice on protection against fire and explosion

No special precautions against fire and explosion are required.

## 7.2 Conditions for safe storage, including any incompatibilities

Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10.5), food and drink. Transfer only to approved containers having correct labeling. Keep container tightly closed. Keep from freezing. Protect container against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Containers of this material may be hazardous when empty as they contain product residue. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Do not take internally. Keep out of reach of children.

## 7.3 Specific end uses

Apart from the uses mentioned in Section 1.2, no other specific uses are stipulated.

# SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

## 8.1 Control parameters

CAS Number	Ingredient	OSHA PEL - TWA	ACGIH TLV	NIOSH
102-71-6	Tetraethanolamine	-----	5 mg/m <sup>3</sup> TWA	-----

## 8.2 Exposure controls

**Engineering Measures:** Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. Use adequate ventilation. Local exhaust is preferable. Refer to Section 7.1.

**Individual protection measures:** Wear protective clothing to prevent repeated or prolonged contact with product. Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the representative supplier.

**Hygiene measures:** Facilities storing or using this material should be equipped with an eyewash station and safety shower. Change contaminated clothing. Preventive skin protection is recommended. Wash hands thoroughly after use, before eating, drinking or using the lavatory.

**Eye/face protection:** Wear protective goggles or safety glasses with unperforated side shields during use. Refer to 29 CFR 1910.133, ANSI Z87.1 or European Standard EN 166.

**Hand Protection:** Wear gloves recommended by glove supplier for protection against materials in Section 3. Gloves should be impermeable to chemicals and oil. Breakthrough time of selected gloves must be greater than the intended use period.

**Other protective equipment:** Protective clothing. Protective boots, if the situation requires.

**Respiratory Protection:** None required with normal use. Always use an approved respirator when vapor/aerosols are generated. Where risk assessment shows air-purifying respirators are appropriate use a full-faced respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

**Environmental exposure controls:** Do not empty into drains.

# SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

## 9.1 Information on basic physical and chemical properties

Appearance	Milky white liquid
Odor	Mild
Odor Threshold	No data available
Molecular Weight	No data available
Chemical Formula	Not applicable
pH	No data available
Freezing/Melting Point, Range	No data available
Initial Boiling Point	100 °C (212 °F)
Evaporation Rate	Not established
Flammability (solid, gas)	Not applicable
Flash Point	>200 °C (>392 °F)
Autoignition Temperature	No data available
Decomposition Temperature	No data available
Lower Explosive Limit (LEL)	No data available
Upper Explosive Limit (UEL)	No data available
Vapor Pressure	No data available
Vapor Density	No data available
Specific Gravity	1.1
Viscosity, Dynamic	No data available
Solubility in Water	Dispersible
Partition Coefficient: n-octanol/water	No data available
Volatiles by Volume	>80%

## 9.2 Other data

No data available

# SECTION 10 - STABILITY AND REACTIVITY

## 10.1 Reactivity

No specific test data related to reactivity is available for this product.

## 10.2 Chemical stability

Stable under normal conditions of use and recommended storage conditions

## 10.3 Possibility of hazardous reactions

None known

Hazardous polymerization does not occur.

#### 10.4 Conditions to avoid

Extreme temperatures, incompatible materials

#### 10.5 Incompatible materials

Isocyanates, strong alkalis, strong acids, strong oxidizing agents

#### 10.6 Hazardous decomposition products

Thermal decomposition products include oxides of carbon, oxides of nitrogen and other toxic gases.

### SECTION 11 - TOXICOLOGICAL INFORMATION

#### 11.1 Information on toxicological effects

##### Acute Oral Toxicity

Expected to have low acute oral toxicity

##### Acute inhalation toxicity

No data available

##### Acute dermal toxicity

Expected to have low acute dermal toxicity

##### Skin irritation

May cause mild, transient skin irritation.

##### Eye irritation

Causes eye irritation.

##### Sensitization

May cause skin sensitization in susceptible individuals.

##### Genotoxicity in vitro

No data available

##### Mutagenicity

No data available

##### Specific organ toxicity - single exposure

No data available

##### Specific organ toxicity - repeated exposure

No data available

##### Aspiration hazard

No data available

#### 11.2 Further information

Triethanolamine: IARC Class 3 carcinogen: Not classifiable as to its carcinogenicity to humans. Not classified as a carcinogen by OSHA, NTP or ACGIH.

No data is available regarding the mutagenicity or teratogenicity of this product, nor is there any available data that indicates that it causes adverse developmental or fertility effects.

Handle in accordance with good industrial hygiene and safety practice.

### SECTION 12 - ECOLOGICAL INFORMATION

#### 12.1 Toxicity

The aquatic toxicity of this product has not been experimentally determined. However, it is expected to have low acute aquatic toxicity based on the acute aquatic toxicity of the individual components and their concentrations in this composition.

#### 12.2 Persistence and degradability

Product is not readily biodegradable.

#### 12.3 Bioaccumulation potential

Product is not expected to bioaccumulate.

#### 12.4 Mobility

No data available

#### 12.5 Results of PBT and vPvB assessment

No data available

#### 12.6 Other adverse effects

##### Additional ecological information

Do not allow material to run into surface waters, wastewater or soil.

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

### SECTION 13 - DISPOSAL CONSIDERATIONS

#### 13.1 Waste treatment methods

**Methods of disposal:** The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues; observe all precautions for product. Do not heat or cut empty containers with electric or gas torch because highly toxic vapors and gases are formed. Do not reuse without thorough commercial cleaning and reconditioning. If containers are to be disposed, ensure that all product residues are removed prior to disposal.

This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection

and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spill material and runoff contact with soil and entry into waterways, drains and sewers.

**Hazardous waste:** The classification of this product may meet the criteria for a hazardous waste.

**SECTION 14- TRANSPORT INFORMATION**

**Land transport (DOT) Non-Regulated**  
**Sea transport (IMDG) Non-Regulated**  
**Air transport (ICAO/IATA) Non-Regulated**

**SECTION 15- REGULATORY INFORMATION**

**15.1 Safety, health and environmental regulations/legislation specific for substance or mixture**

**U. S. Federal Regulations**

**OSHA Hazard Communication Standard:** This material is classified as hazardous in accordance with OSHA 29 CFR 1910-1200.

**TSCA Status:** All components of this product are listed on the Toxic Substance Control Act (TSCA) Inventory.

**Superfund Amendments and Reauthorization Act (SARA)**

**SARA Section 311/312 Hazard Categories:** Acute Health Hazard, Chronic Health Hazard

**SARA 313 Information:** Glycol Ethers (SARA code N230) are subject to the reporting levels established by Section 313 of the Emergency Planning and Community Right-to Know Act of 1986

No components of the product exceed the threshold (de minimis) reporting levels

**SARA 302/304 Extremely Hazardous Substance:**

established by of these sections of Title III of SARA.

No components of the product exceed the threshold (de minimis) reporting levels

**SARA 302/304 Emergency Planning & Notification:**

established by of these sections of Title III of SARA.

**Comprehensive Response Compensation and Liability Act (CERCLA):** This product contains the following CERCLA reportable substances:

Glycol Ethers - There is no RQ assigned to this broad class, although the class is a CERCLA hazardous substances. Refer to 50 Federal Register 13456 (April 4, 1985).

**Clean Air Act (CAA)**

Glycol Ethers (EDF-109) are listed as Hazardous Air Pollutants (HAPs) designated in CAA Section 112(b).

This product does not contain any Class 1 Ozone depletors.

This product does not contain any Class 2 Ozone depletors.

**Clean Water Act (CWA)**

Glycol Ethers (EDF-109) are listed as Hazardous Substances under the CWA.

None of the chemicals in this product are listed as Priority Pollutants under the CWA.

None of the chemicals in this product are listed as Toxic Pollutants under the CWA.

**U.S. State Regulations**

**California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986**

This product contains trace amounts of substances known to the State of California to cause cancer.

**Other U.S. State Inventories:**

Tetraethanolamine (CAS #102-71-6) is listed on the following State Hazardous Substance Inventories, Right-to-Know lists and/or Air Quality/Air Pollutants lists: CA, MA, MN, NJ, PA.

**Canada**

None allocated

**WHMIS Hazard Symbol and Classification:**

This product has been classified in accordance with the hazard criteria of the Controlled

**Canadian Controlled Products Regulations (CPR):**

Products Regulations, and the SDS contains all the information required by the Controlled Products Regulations.

**Canadian Ingredient Disclosure List (IDL):** Tetraethanolamine and 2 proprietary components contained at <1% each are listed on the IDL.

**Canadian National Pollutant Release Inventory (NPRI):** A proprietary component is listed on the NPRI.

**~~European Economic Community~~**

None allocated

**Labeling (67/548/EEC or 1999/45/EC):**

1

**WGK, Germany (Water danger/protection):**

**Global Chemical Inventory Lists**

Country	Inventory Name	Inventory Listing*
Canada:	Domestic Substance List (DSL).	Yes
Canada:	Non-Domestic Substance List (NDSL).	No
Canada:	Inventory of New and Existing Chemicals (EINECS)	Yes
Europe:	Toxic Substance Control Act (TSCA)	Yes
United States:	Australian Inventory of Chemical Substances (AICS)	Yes
Australia:	New Zealand Inventory of Chemicals (NZIoC)	Yes
New Zealand:	Inventory of Existing Chemical Substances in China (IECSC)	Yes
China:	Inventory of Existing and New Chemical Substances (ENCS)	Yes
Japan:	Existing Chemicals List (ECL)	Yes
Korea:	Philippines Inventory of Chemicals and Chemical Substances (PICCS)	Yes
Philippines:		

\*"Yes" indicates that all components of this product are in compliance with the inventory requirements administered by the governing country.

\*"No" indicates that one or more components of this product are not on the inventory and are not exempt from listing.

## 15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

### SECTION 16 - OTHER INFORMATION

Hazardous Material Information System (HMIS)

Health	1
Flammability	0
Physical Hazard	0
Personal Protection	B

#### HMIS & NFPA Hazard Rating Legend

\* = Chronic Health Hazard      2 = MODERATE  
0 = INSIGNIFICANT                3 = HIGH  
1 = SLIGHT                            4 = EXTREME
