

DIRT AXE™

- + **Very Cost Effective!**
 - + **Bonnet/Pad Cleaner**
- + **Hot Water Extraction Detergent**
- + **Traffic Lane Cleaner**
- + **Film Forming Encapsulant**
 - + **Low foam... pH 9.0 at 1:32**
- + **pH safe for Stain Resist Carpet**
- + **Advanced surfactant technology**
- + **No alcohols, butyls, terpenes, etc.**
- + **Contains "Corrosion Inhibitors"**
- + **No sticky residue to attract dirt**
 - + **Environmentally friendly**
 - + **Light pleasant scent**

CUTS THROUGH THE GRIME WITH LESS COST!

HMIS Hazard Rating		
Health	1	0=Minimal
Flammability	0	1=Slight
Reactivity	0	2=Moderate
		3=Serious
PPE	B	4=Severe

Description

Dirt Axe™ has exceptional grease cutting power and cleansing action. It penetrates, breaks up and emulsifies the oily film that binds dirt particles to carpet fibers. Its grease & oil cutting power is accomplished without petroleum distillates, butyl, enzymes or phosphates. Dirt Axe is more than 99.8% readily biodegradable at use dilution.

Dirt Axe is no less than fantastic for greasy or neglected carpet, but it is still safe for stain resist residential nylon when mixed at 4 ozs per gallon of water.

Dirt Axe will simply make any job go quicker and easier without worry of leaving a dirt attracting residue. If you dry some of the undiluted product in a shallow dish or saucer, it simply dries to an encapsulating film.

Applications

Dirt Axe was designed to clean "Oil Loving" fibers such as Olefin and Polyester, but may be used on all colorfast synthetic carpet and upholstery with amazing results!

Directions

Vacuum carpet thoroughly to remove dry particulate soil. Test all carpeting for color fastness before applying any carpet cleaning product. Mix product according to directions using dilution ratios listed below and on the product label.

- **Traffic Lane Pre-Spray:** Depending upon the soil load, mix 2 - 8 oz per gallon of hot or cold water and apply at the rate of 200 to 400 Sq Ft per gallon of RTU solution. For a 5 quart Hydroforce with an 8 to 1 tip, use 22 to 85 oz and fill with water. Dwell time will help, but may not be necessary.
- **Hot Water Extraction Rinse Detergent (Emulsifier):** For Truckmounts: 16 to 32 oz per 5 gallons of Stock Solution.
- **Portables:** 2 to 4 oz per 5 gallons.
- **As a Pad/Bonnet Cleaning Pre-spray:** Dilute 2 to 8oz per gallon of hot or cold water and apply at the rate of 200 to 400 Sq Ft per gallon of RTU solution. Dwell time will help, but may not be necessary.

See product label and MSDS for additional information and instructions.

Benefits

- ☆ **Very Cost Effective!**
- ☆ **Slices through grease, dirt & grime that competitive products leave behind!**
- ☆ **ZERO sticky or dirt-attracting residue.**
- ☆ **Ideal for any heavily soiled synthetic commercial or residential carpet.**
- ☆ **Penetrates and emulsifies the sticky film that binds dirt to carpet and upholstery fibers.**
- ☆ **Environmentally friendly... More than 99.80% readily biodegradable at use dilution.**
- ☆ **Very pleasant scent.**
- ☆ **Contains "Corrosion Inhibitors".**
- ☆ **Dries to an encapsulating film.**
- ☆ **Stain resist safe (pH approx 9.0 at 1:32).**
- ☆ **Freeze-Thaw stable.**
- ☆ **May be used with either Hot Water Extraction or Low Moisture systems.**

Packaging.....1 gal bottles (4 per case)
