## Description

Grease Hawg is a super aggressive, encapsulating pre-spray that slices through grease and soil like a hot knife through butter. Even though it is a convenient liquid it has all the cleaning power & more of a high pH powder.

Grease Hawg was formulated to address the cleaning challenges where nothing else will get the job done. It is great for Grease Spoon Restaurants, Trashed Apartments, Tile and Grout... any place where nothing else will get the job done!

It is a perfect combination of HIGH pH, aggressive surfactant technology and encapsulating polymers. It's film forming encapsulating qualities insures that you will never have to worry about leaving a dirt attracting residue to cause rapid re-soiling.

Use it with your Truck Mount or your Low Moisture system... it will work great with either!

## Applications

Grease Hawg was designed to clean the nastiest & filthiest of synthetic fibers with amazing results, but should NOT be used to clean Stain Resist fibers or any fibers requiring a cleaning solution with a pH below 12.

## Directions

Vacuum carpet thoroughly to remove dry particulate soil. Test all carpeting for color fastness before applying any carpet cleaning product. Mix product according to directions using dilution ratios listed below and on the product label.

- **Traffic Lane Pre-Spray:** Depending upon the soil load, mix 2 - 4 oz per gallon of hot or cold water and apply at the rate of 200 to 400 Sq Ft per gallon of RTU solution (dampen all fibers). For a 5 quart injection spray with an 8 to 1 tip, use 22 to 44 oz and fill with water. 5 to 15 minutes dwell time will help, but may not be necessary.
- **As a Pad/Bonnet Cleaning Pre-spray:** Dilute 2 to 4oz per gallon of hot or cold water and apply at the rate of 200 to 400 Sq Ft per gallon of RTU solution (dampen all fibers). 5 to 15 minutes dwell time will help, but may not be necessary.

See product label and MSDS for additional information and instructions.

## Benefits

- ☆ Very Cost Effective!
- ☆ Slices through grease, dirt & grime in situations where nothing else will get the job done!
- ☆ ZERO sticky or dirt-attracting residue.
- ☆ Ideal for any heavily soiled synthetic carpet.
- ☆ Penetrates and emulsifies the sticky film that binds dirt to carpet fibers.
- ☆ Light pleasant citrus scent.
- ☆ Contains "Corrosion Inhibitors".
- ☆ Dries to an encapsulating film.
- ☆ Freeze-Thaw stable.
- ☆ May be used with either Hot Water Extraction or Low Moisture systems.

**Packaging**.....1 gal bottles (4 per case)
