

Bag Filler Stand Instructions

Video - How To Use The Bag Filler Stand
<https://youtu.be/IFsDVUCC6AY>

Thank you for purchasing a Bag Filler Stand. If you have any questions please contact us at mail@farmhousecider.ca.

STEP #1 - Remove tap and place bag/ pouch in the stand so the stand sits between the bag and the first ring on the spout.

STEP #2 - Fill the bag/pouch to just below the spout using a siphon hose or funnel.

STEP #3 - With one hand push out the remaining air in the bag and then place the tap in the spout to the first click.

STEP #4 - Grab the stand at the neck and push the tap down with your palm until seated (2 more clicks).

Optional STEP #4 - How To Re-use The Bag/Tap

After the first click at **STEP #3**, only push the tap down 1 more click instead of 2 in **STEP #4**. This will still make a great seal and allow you to remove/re-use the tap and bag. If you seat the tap (2 clicks) it will not come out. Please do not forget to clean/sanitize the tap and bag prior to re-using.
