

# LE COL

CUSTOM CATALOGUE 18/19

# OUR STORY

---

After over 20,000 thousand hours in the saddle as a professional cyclist and rider for team GB, Yanto Barker founded Le Col in 2011.

We are a team of performance, design and cycling specialists united by a desire to create a cycling apparel brand with a single-minded focus on performance. We take real pride in what we do, and our purpose is simple but enduring: We deliver the best possible technical products to help you to achieve your potential on every ride.

# THE FACTORY

---

In choosing to work with us to create your custom kit, you're opting to ride in apparel that allows you to train and race in total comfort, without compromising on performance. We pride ourselves on paying attention to those little details that often get overlooked.

We never compromise on quality and continually search for innovations in all our products, which is why we bought our own factory in Treviso, Italy – an area renowned for expertise in high performance sporting apparel. It's in this factory that we'll use the most up-to-date technology and modern fabrics to bring your designs to life.

# HOW THE PROCESS WORKS

---

We've spent years working with cycling teams to refine our custom product and processes so that they're as straightforward and streamlined as possible. In keeping things simple, we hope to leave you free to focus on the most important things in life - like riding your bike.

- 1/ You can either supply your own artwork, or use our in house designers to create it for you.
- 2/ Once you're happy with your custom design, you'll just need to confirm the quantity, and then your order will go into production at the factory.
- 3/ Six to eight weeks later, we'll ship your order and you and your team can start riding in style.

# CHOOSING THE RIGHT KIT FOR YOUR TEAM

---

Whether your club is full of long distance devotees, keen racers or weekend warriors, here's a brief guide to help you decide which type of Le Col garments are best suited to their style of riding.

## CLUB RANGE

---

*Classic. Relaxed. Stylish.*

The most popular choice for club cycling teams. Our fully customisable Club jerseys are made with a more training-focused fit, giving you a great level of breathability and fantastic freedom of movement, no matter how long your ride.

Our Club Bibs come with a high-quality foam chamois which means zero chafing and maximum ventilation – keeping you comfortable on the road all year round.

## PRO RANGE

---

*Aerodynamic. Lightweight. Race Fit.*

For teams where every second counts we offer professional kit to the same specifications as our pro teams. Every garment in the Pro range uses our lightest available fabrics, helping you to keep your weight on the bike to a minimum and maximise your performance on the road.

The Pro jerseys feature our most aerodynamic fit and the Pro bibshorts feature a high-density chamois - both designed to optimise speed when you're in a more aggressive on-the-drops position.

OUR  
PRODUCTS:  
CLUB  
RANGE

# OUR PRODUCTS: CLUB JERSEYS

---

The fully customisable Club jersey offers a great level of breathability and comfort with a training-focussed fit.

*Features include:*

- Flat locked seams and covered edges on the collar to avoid irritation
- Covered Le Col full-length zip puller for ease of use with one hand at high speeds.
- A silicon gripper at the waist hem to hold the jersey firmly in place

# OUR PRODUCTS: CLUB JERSEYS LONG SLEEVE

---

The long sleeve jersey will keep you warm on evening rides and everything in between. Made from a breathable high wicking fleece lined fabric to keep you warm when the weather is a little cooler.

## *Features include:*

- Fast drying, fleece-lined fabric that's soft to the touch
- A soft-lined high collar with zip guard to keep the elements out
- Three large rear pockets to hold all of your essentials
- A silicon gripper at the waist hem to hold the jersey firmly in place

# OUR PRODUCTS: CLUB BIBS

---

The Club bibs are our classic cycling shorts. Fully customisable and made from a 210g Lycra fabric, the shorts are lightweight, breathable and offer fantastic freedom of movement.

## *Features include:*

- Six-panel fabric construction and flat locked seams
- Mesh bib straps to aid heat regulation
- Our trademark leg gripper to keep the shorts in place
- High-quality foam chamois, with hypoallergenic gel inserts which support you, ride, after ride
- A chamois which includes larger ventilation holes for added breathability, and improved comfort.
- Special 'thread and stitch' shape down the outside edges of the chamois, keeping rubbing to an absolute minimum.

# OUR PRODUCTS: **CLUB BIB TIGHTS**

---

Our Club Bib Tights offer everything you need to keep riding in safety and comfort through the winter months.

*Features include:*

- Lined with Italian Roubaix fleece, and with flatlock seams for maximum comfort
- Our trademark ankle gripper to keep the bibs in place
- Reflective piping to keep you visible in the darker evenings
- High-quality foam chamois, with hypoallergenic gel inserts which support you, ride, after ride
- A chamois which includes larger ventilation holes for added breathability, and improved comfort

# OUR PRODUCTS: CLUB JACKET

---

Our club jacket has been designed to provide a tailored fit and thermal layer against the elements. Designed with a Windstopper front and Meryl fabric back the club jacket regulates your temperature even during the hardest training efforts.

***Features include:***

- Ergonomically fitting shoulders which are 'pinned' to offer a more fitted feel when in a riding position
- Full zip, and zip guard to keep you comfortable and dry
- Silicon grippers around the torso to hold the jacket in position

# OUR PRODUCTS: GILET

---

Our custom gilets are a must for any cyclist who rides year round. Adding a layer of protection from the elements when you need it, this gilet packs down small enough to fit into a jersey pocket.

***Features include:***

- Made from fabrics which are wind and shower proof
- Includes a mesh back panel for added breathability
- Reflective tabs to ensure you're visible on the road in low light
- Full length zip for ease of taking the gilet on/off during changeable conditions

OUR  
PRODUCTS:  
**PRO  
RANGE**

# OUR PRODUCTS: PRO JERSEYS

---

Designed for high-performance riding, the Pro Jersey is the most aerodynamic jersey we've ever created. It uses a combination of fabrics for a lighter & sharper aero fit, and is ideal for riders focused on speed.

## *Features include:*

- A new, longer sleeve for aerodynamic riding\*
- Upgraded lighter Borgnini fabric on the sleeves to keep you cool at the higher riding intensity\*
- A laser cut sleeve finish to reduce extra fabric\*
- Flat locked seams and covered edges on the collar to avoid irritation
- Covered Le Col zip puller for ease of use with one hand at high speeds
- A silicon gripper at the waist hem to hold the jersey firmly in place

*\*Features specific to the Pro jersey*

# OUR PRODUCTS: PRO BIBS

---

The Pro Bibs use a fabric that's engineered to provide exceptional fit and deliver dependable form, season after season.

## *Features include:*

- Trademark Le Col gripper with intermittent silicone tabs – holds the shorts firmly in place with less pull
- Flat locked seams to eliminate irritation
- High-density Dolomiti chamois pad, for extra shock absorption and maximum comfort\*
- Special 'thread and stitch' shape down the outside edges of the pad, keeping rubbing to an absolute minimum
- A chamois which includes larger ventilation holes for added breathability, and improved comfort

*\*Features specific to the Pro Bibs*

# OUR PRODUCTS: **PRO BIB TIGHTS**

---

Our fleece-lined Pro Winter cycling tights are ideal for unpredictable long days in the saddle.

***Features include:***

- Lined with Italian Roubaix fleece, and with flatlock seams for maximum comfort
- Reflective piping to keep you visible in the darker evenings
- An upgraded high density, Dolomiti pad, for extra shock absorption and maximum comfort
- Special thread and stitch shape down the outside edges of the pad, keeping rubbing to an absolute minimum
- A chamois which includes larger ventilation holes for added breathability, and improved comfort

*\*Features specific to the Pro Bibs*

# OUR PRODUCTS: PRO SKIN SUIT

---

Our Pro Skin Suit is proven to be one of the fastest road-race skinsuits in the world.

*The aerodynamic features include:*

- Ergonomically designed long sleeves with 'flow seams' for minimum wind resistance
- A low cut, collarless neck line which eliminates ripples in material at the shoulders
- Short front panels to ensure a perfect fit when in the TT position
- A Skin Suit specific leg gripper to hold the shorts in place
- Extra Lycra material on the back to allow maximum airflow over the suit
- Seams designed to 'trip' air away - minimising turbulence and creating less drag

# OUR PRODUCTS: PRO SPEED SUIT

---

Our Speed Suit combines incredible aero speed with the versatility and comfort of a jersey. A favourite choice for team riders for everything from crits to stage races.

## *Features include:*

- Aerodynamic short sleeves, fitted at the shoulder and with gummy grippers for maximum comfort
- Refashioned rear pockets which sit flat against the torso to minimise drag when empty
- A full front zipper for ease of use
- A race number flap for pinning on a number
- A small, handy zip pocket to stow essential items when racing

# ACCESSORIES

---

Knee warmers

Leg warmers

Arm Warmers

Overshoes

Caps (minimum order 100)

Socks (minimum Order 100)

# CUSTOM DESIGN TESTIMONIALS TEAM WIGGINS

---

*"The design of this season's Team Wiggins kit is my favourite so far, it's distinctive and stylish, and I am looking forward to seeing the guys racing in it. Working with Le Col's designers has been a case of perfectly matching their performance insight and design expertise with my passion for historical cycling kit."*

**Sir Bradley Wiggins**

# CUSTOM DESIGN TESTIMONIALS STOREY RACING

---

*"I love everything about the Le Col kit, from the chamois to the leg grippers and the length on the body in the jersey, everything is optimised for performance, durability and comfort. In the 12 years I've been racing bikes and after winning 14 Paralympic golds - it's the best I've used!"*

**Dame Sarah Storey MBE**
