SAFETY INSTRUCTIONS

Intended Use

The following safety guidelines are intended to prevent unforeseen risks or damage from unsafe or incorrect operation of the appliance. Please check the packaging and appliance on arrival to make sure everything is intact to ensure safe operation. If you find any damage, please contact the retailer or dealer. Please note modifications or alterations to the appliance are not allowed for your safety concern. Unintended use may cause hazards and loss of warranty claims.

Explanation of Symbols

Danger

This symbol indicates that there are dangers to the life and health of persons due to extremely flammable gas.

Warning of electrical voltage

This symbol indicates that there is a danger to life and health of persons due to voltage.

Warning

The signal word indicates a hazard with a medium level of risk which, if not avoided, may result in death or serious injury.

Caution

The signal word indicates a hazard with a low degree of risk which, if not avoided, may result in minor or moderate injury.

Attention

The signal word indicates important information (e.g. damage to property), but not danger.

Observe instructions

This symbol indicates that a service technician should only operate and maintain this appliance in accordance with the operating instructions.

Read these operating instructions carefully and attentively before using/commissioning the unit and keep them in the immediate vicinity of the installation site or unit for later use!

IMPORTANT SAFETY INSTRUCTIONS

To avoid the risk of serious injury when using your blender, basic safety precautions should be followed, including the following.

READ ALL INSTRUCTIONS, SAFEGUARDS, AND WARNINGS BEFORE OPERATING BLENDER

- There is a potential injury from misuse. Please handle it with care.
- Always disconnect the appliance from the supply if it is left unattended and before assembling, disassembling or cleaning.
- This appliance shall not be used by children. Keep the appliance and its cord out of children reach.
- Appliances can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved.
- Children shall not play with the appliance.
- Be careful when handling the sharp cutting blades, emptying the bowl and during cleaning.
- Be careful if hot liquid is poured into blender as it can be ejected out of the appliance due to a sudden steaming.
- Switch off the appliance and disconnect from supply before changing accessories or approaching parts that move in use.
- This appliance is intended to be used in household and similar applications such as:
 - Staff kitchen areas in shops, offices and other working environments;
 - Farm houses;
 - By clients in hotels, motels and other residential type environments;

- Bed and breakfast type environments.
- This appliance conforms to EC Regulation 1935/2004 on materials and articles intended to come into contact with food.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

SAVE THESE INSTRUCTION.
THIS UNIT IS INTENDED FOR HOUSEHOLD USE ONLY.

CAUTION

Ensure that the blender is switched off before removing

The failure to follow any of the important safeguards and the important instructions for safe use is a misuse of your blender that can void your warranty and create the risk of serious injury.

SAFETY SYSTEM

This appliance is equipped with motor thermal protector. If the appliance overheats, it switches off automatically. Unplug the appliance and let it cool down until room temperature then put the mains plug back into the power outlet and switch on the appliance again. Please contact your dealer or an authorized service center if it is activated too often.

SPECIFICATION

Model	MJ-BL6008BW
Rated voltage	220-240V~
Rated frequency	50-60Hz
Rated power	600W

Circuit Principle Diagram

PRODUCT OVERVIEW

Parts Name

Accessories

No.	Description
1	Jar lid
2	Glass jar (1L)
3	Blade system
4	Gear switch
5	Plastic grinder cup
6	Grinder blade system
7	Spatula

OPERATION INSTRUCTIONS

Table Blender

Functions (Speed)
MOTOR BASE SPEED CONTROL

Many recipes process best with a combination of speeds with occasional use of pulse.

PULSE Momentary burst of high power.

CHOP (speed 1) Low speed to combine more delicate foods with a folding motion, and is good for combining wet and dry ingredients.

LIQUIFY (speed 2) High speed is ideal for breaking down ingredients to make ice based drinks and other finely blended mixtures.

GRINDER (Optional)

Spatula

- When the blender is switched on, use the spatula to enhance the smoothness and consistency of result.
- When the blender is switched off, use the spatula to remove the sticky ingredients on the jar.

Before First Use

Before using your blender for the first time, remove any packaging material and promotional labels.

Be careful when handling the blades as they are extremely sharp.

Wash the jug, lids, blade assembly and attachments in warm soapy water with a soft cloth. Rinse and dry thoroughly. All parts (except motor base) may be washed in the dishwasher, on the top shelf.

Overload Protection System

- The working time of the grinding cup should not be more than 60 seconds and the max capacity shall not exceed 50g, the continuous working interval must be 5 minutes and no more than 3 times, and the working time of the mixing cup should not exceed 3 minutes. After the shutdown, it is necessary to let it fully heat, cooling to room temperature.
- The MAX line is usually a good indicator to prevent overly heavy loading, however some especially dense combinations of ingredients may still strain the motor. If the motor seems to be straining or running slowly, only operate for 10 seconds at a time, or reduce the amount of ingredients used. Adding more liquid can also help to loosen dense mixtures.

NOTE

- Do not process hot foods or liquids in blender.
- Do not store food or liquids in the blender jar.
- Avoid bumping or dropping the blender.

RECIPES

Blending programs

The blending times in the chart below are not approximate and should be adjusted to suit your own tastes, different food quantities and food manufacturer's instructions.

Food	Preparation	Quantity	Functions (speed)	Time
Smoothie	Milk,fruit,yoghurt, ice cream	Max 800mL	Chop(speed 1): Liquify(speed 2)	60secs
Ice or frozen fruit	Frozen no larger than standard ice tray	Max 8pieces	Pulse; Liquify(speed 2)	60secs
Blended soups	Cool to room temp	800mL	Chop(speed 1)	60secs
Carrots juicer	Carrots,water	400g carrots, 600g water	Speed 2	60 secs
Dry pepper	Dry pepper	50g(max)	Speed 2	60secs
Pepper	Pepper	50g(max)	Speed 2	60secs
Coffee bean	Coffee bean	50g(max)	Speed 2	60secs
Soybean	Dry soybean	50g(max)	Speed 2	60secs
Peanut	Peanut	50g(max)	Speed 2	60secs

CAUTION

- Hot liquids can erupt during blending. Do not blend hot liquids.
- This product is not suitable for mixing dry food. Never run the appliance empty.

Tip

- In the process of operation, press the “0” key to complete the program in advance
- Press the “0” key to stop any program and shut down the device during operation

CLEANING AND MAINTENANCE

Cleaning

⚠ WARNING

Unplug the power cord from the power outlet after use for safety reasons.

Jug, blades and lids

Avoid allowing food residue to dry on. Follow these steps as soon as possible after use:

- Rinse most of the residue off the jug, blades and lids.
- Hand wash in warm, soapy water using a mild liquid detergent and non-abrasive sponge.

Motor base

To clean the motor base, wipe with a soft, damp cloth then dry thoroughly. Wipe any excess food particles from the power cord.

Cleaning agents

Do not use abrasive scouring pads or cleaners on either the motor base or any part of the blender, as they may scratch the surface. Use only warm soapy water with a soft cloth.

Dishwasher

The jug, lids and blade assembly may be washed in the dishwasher on the top shelf only.

Stubborn food stains and odours

Strong smelling foods such as cumin and coriander, and some vegetables such as carrots may leave an odour or stain.

To remove, pour warm soapy water and fill to the MAX mark. Set aside to soak for 5 minutes. Then wash with a mild detergent and warm water, rinse well and dry thoroughly. Store blending bottle and jug with lids off.

Maintaining

Store your blender upright with the blender jug assembled on the motor base, or beside it. Do not place anything on top. To allow air to circulate, keep the lid off.

TROUBLESHOOTING

Operation of your appliance can lead to errors and malfunctions. The following tables contain possible causes and notes for resolving an error message or malfunction. It is recommended to read the tables carefully below in order to save your time and money that may cost for calling to the service center.

Abnormality Handling

1. In case of abnormalities such as abnormal noises, smell, smoke, etc., you should immediately cut off power and stop use.
2. If the product does not work, please check whether the power is on, whether the "1 or 2" key is pressed, and whether the accessories are installed in place.
3. If the product still cannot work after checks mentioned above, please consult the designated repair centre for maintenance.

Fault Analysis and Elimination

Problem	Cause	Solution
The appliance is not working	• Appliance not plugged in • Wall outlet not energized • Appliance not switched on • Overheated appliance • Over current protection activated • Too much food in the jar • Malfunctioning appliance	• Insert the plug into the wall outlet • Check fuses and circuit breaker • Press the "0" key,unplug the appliance from the wall outlet and allow to cool down before using it again • Press the "0" key, to switch the appliance off Resume blending operation • Press the "0" key,remove some food, shake ingredients to redistribute and restart blending operation • Press the "0" key,unplug the appliance from the wall outlet and contact qualified personnel to check and repair the appliance

The blades are rotating very slowly	• Too much food in the jar / Motor is overloaded • Not enough liquid in the jar / Motor is overloaded	• Press the "O" key, remove some food, shake ingredients to redistribute and restart blending operation • Press the "O" key, add some liquid and restart blending operation
Food not fully blended	• Ingredients too large • Too much food in the jar	• Press the "O" key, remove ingredients and cut them into smaller pieces • Press the "O" key, remove some food, shake the jar to redistribute the ingredients and then restart blending operation
Water leakage	• Parts not tightly secured • Missing seal ring on the lid • Damaged seal ring on the lid • Damaged seal ring on the blade unit	• Check and secure the parts carefully • Place the required seal • Replace with a proper new seal • Replace the blade unit

DISPOSAL AND RECYCLING

Important instructions for environment

Compliance with the WEEE Directive and Disposing of the Waster Product:
This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waster electrical and electronic equipment (WEEE).

This symbol indicates that this product shall not be disposed with other household wastes at the end of its service life. Used device must be returned to official collection point for recycling of electrical electronic devices. To find these collection systems please contact to your local authorities or retailer where the product was purchased. Each household performs important role in recovering and recycling of old appliance. Appropriate disposal of used appliance helps prevent potential negative consequences for the environment and human health.

Compliance with RoHS Directive

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain harmful and prohibited materials specified in the Directive.

Package information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

DATA PROTECTION NOTICE

For the provision of the services agreed with the customer, we agree to comply without restriction with all stipulations of applicable data protection law, in line with agreed countries within which services to the customer will be delivered, as well as, where applicable, the EU General Data Protection Regulation (GDPR).

Generally, our data processing is to fulfil our obligation under contract with you and for product safety reasons, to safeguard your rights in connection with warranty and product registration questions. In some cases, but only if appropriate data protection is ensured, personal data might be transferred to recipients located outside of the European Economic Area.

Further information are provided on request. You can contact our Data Protection Officer via **MideaDPO@midea.com**.
