

# What is it?

- A newer, quicker solution for overflow gasket leaks and replacements.
- No more leaky bathtubs/overflow drains; save thousands of dollars in potential water damages and repairs.
- Low-cost, DIY installation in 3 minutes without the help of a licensed professional.
- A BlueVue overflow cover is included for every gasket kit.

## BVT-BIG-30FS

The BVT-30FS gasket works for bathtub overflows. Secured with a two-hole mount; not usable with single hole mounts.

The BIG gasket covers a larger area than our regular-sized gasket to hide rust damage around the rim of the overflow pipe. It works for center hole overflow pipes (single-screw mount) and/or overflows with one screw on each side (double-screw mounts).

	→		<b>BIG-HMS</b>
	→		<b>BIG-3TOF</b>

## BIG-3SH0

BlueVue's larger-sized overflow gasket is designed for single hole overflow pipe.

## BIG-4DMS

BlueVue's regular and larger-sized overflow gasket is available for trip lever drain systems. This kit contains our leak-proof gasket, a BlueVue trip lever overflow cover and a bathtub drain strainer.

## BIG-HMS

The half tube overflow gasket kit is designed to fit overflows with a center bar.

## BIG-3TOF

BlueVue's three tube gasket kit is designed to fit claw foot bathtub overflows.
