9. power
10. return

Before You Use

1. Remove the protective film on the screen, lens, and other packaging materials.

2. Insert the SD card into the slot. Charge the camera before first use. Use only the provided cable with the camera.
   (**Note**: do not use adapter output above 5V 2A)

3. Insert the print paper as shown. Make sure the paper outside faces up. It will not print in the opposite direction.

4. Connect the lanyard to both sides of the camera. We recommended using the lanyard at all times when children are playing with the camera.

How to Use

Turn on / off and main menu
Press and hold 🔘 the button to turn the camera on/off. Press once to return to the main menu.
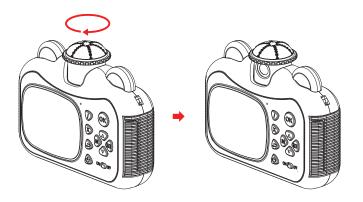

Take photos / videos
Press the 🔘 button to switch between photo/video mode. Then, press 🆗 the button to take photos / videos.

Printing
To print photos, flip on the print switch before taking photos. To print from the album, press the 🔘 button. Then click the 🆗 button and select print from the screen.
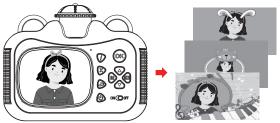

Take selfie
On the top of the camera, gently turn the lense 180 degrees, so it clicks into place and is facing behind the camera.

User cartoon frame

Press the Ⓜ button to use the frame. Use the up / down button to select a frame.

Tips

- After you turn on the camera, print 1 - 2 times to let the printer warm up.

- A picture with higher contrast (nearly black and white) will have better printing results.

- Only refill with thermal print paper size 2.25 x 1.2 in (57 x 30mm).
