Anti-Theft Mount for Google Nest Doorbell (battery)

User Manual

W

WASSERSTEIN

In the Box

1 x plastic housing

1 x metal mount

4 x long screws for the plastic housing

4 x short screws for the metal mount

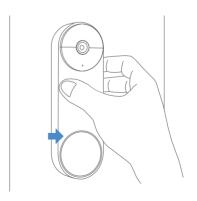

1 x screwdriver

Safety Information

- Read this manual and instructions carefully before use. Failure to follow the safety instructions may cause injury or damage to your property.

- Small parts contained in the box can be a choking hazard. Keep small parts away from children.

- Only use with the Google Nest Doorbell (battery).

How to Install

1. Take down the Nest Doorbell if you have previously installed it on your wall.
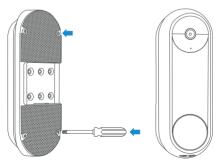

2. Put the doorbell inside the housing. Make sure the doorbell fits the front plate.

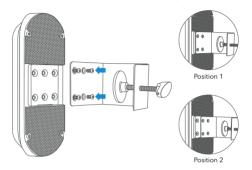

Note: Make sure to attach the Nest Doorbell metal plate to the back of the Nest Doorbell before placing it inside the housing.
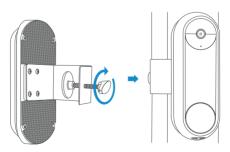

3. Attach and screw in the front plate to the backplate using the four long screws provided.

4. Attach the metal mount to the plastic housing using the four short screws provided. There are two positions users can select depending on preference.

Position 1

Position 2

4. Position the metal mount on the door and tighten using the back screw.

Important Notes

- The doorbell can be turned 180 degrees and mounted on the door that opens in the other direction.

- The door must be opened inwards.

- The door thickness must be 0.9 to 2.3 in.

- There must be a 1/8 in gap between the door and doorframe.

Specifications
