Features

Extend the battery life of Ring Video Doorbell 3 and 3 Plus

Powered by solar energy

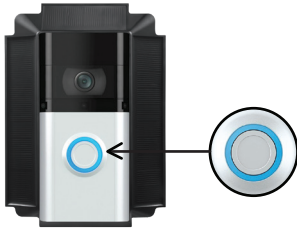

Weather-resistant

Safety Information

- Do not try to open or break the Solar Charging Bracket.
- Keep the solar charging bracket away from direct heat sources and fire.
- Ensure that all the screws of the Solar Charging Bracket are tightened before placing it for outdoor use.
- Do not overstretch the USB cable and avoid bending the connector.

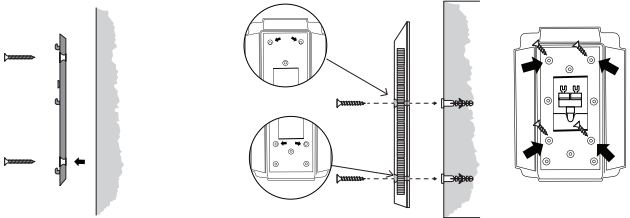

Important Note

The light on the Ring Video Doorbell 3 and 3 Plus will flicker blue when connected to our Solar Charging Bracket only in the presence of sunlight. This flickering indicates that the Ring Video Doorbell 3 and 3 Plus is being charged.

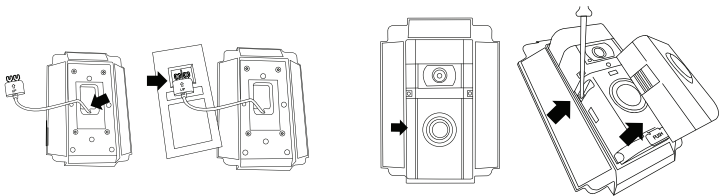

However, when the Solar Charging Bracket is charging the Ring Video Doorbell 3 and 3 Plus, this light flickering may NOT HAPPEN every time. At times when there is no light flickering, please use your Ring App to check if the battery life has been extended.

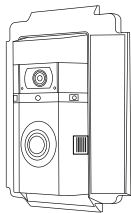

Installation

1. Remove the cover from the Ring Video Doorbell 3 and 3 Plus and dismount it from the wall if you have mounted it previously.
2. Install the Solar Charging Bracket onto the wall using the screws and wall anchors provided. Use the circled holes to attach the screws to the doorbell for mounting.

3. Pull out the fork charging connector from the solar charging bracket. Attach the charging connector to your Ring Doorbell and screw in the connector using the short black screws provided. You may also use the screws that come with the Ring doorbell.
 4. Place the doorbell on the Solar Charging Bracket. While still holding your Doorbell, pull out the front cover of the doorbell and screw in the doorbell to the Solar Charging Bracket using the long black screws provided.
5. Ready to begin charging your Ring Video Doorbell 3 and 3 Plus.

Troubleshooting

- 1. I am not sure if my Ring Video Doorbell 3 and 3 Plus is being charged.**

In the presence of sunlight, there will be a light flickering on Ring Video Doorbell 3 and 3 Plus to show that it is being charged. However, at other times, it may not flicker. In such cases, please wait for some time and then check your Ring App to view the battery status of your Doorbell Ring Video Doorbell 3 and 3 Plus. This way you will know if the battery life was extended.
- 2. It does not charge my Ring Video Doorbell 3 and 3 Plus.**

Please check your Ring App to ensure it's being charged and not just rely on the Ring Light indication. Also, ensure that the Solar Charging Bracket is receiving adequate sunlight.
