# Solar panel for Noorio Spotlight Cam B210

**USER MANUAL** 

#### In the Box

#### Important Note

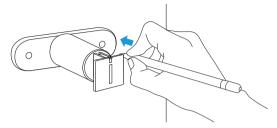

- Fully charge the Noorio Spotlight Cam B210 before connecting it to the solar panel.
- Mount the solar panel in a place that gets direct sunshine.

#### Warning

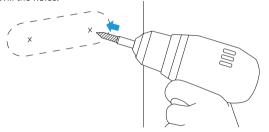

- 1. Do not open or dismantle the solar panel for any reason.
- Keep the solar panel away from any heat source like a furnace, heater, or grill.
- Make sure that the outdoor charging cable is properly attached to your camera.
- 4. Do not bend, stretch, or cut the charging cable.

# Installing Solar Panel

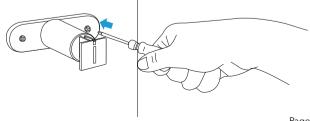

1. Mark the holes using the bracket for guidance.

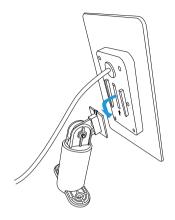

2. Drill the holes.

3. Insert the anchors and screw the mount to the wall.

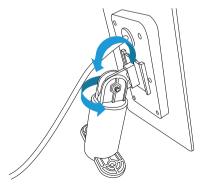

4. Slide the solar panel onto the mounting piece.

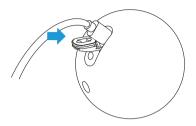

# Adjusting Solar Panel

The 360-degree rotatable mounting bracket allows you to adjust the solar panel in the best position to absorb sunlight.

#### Connecting and Setting up the Camera

 Open the rubber cap at the back of your camera, and plug the cable firmly into the port.

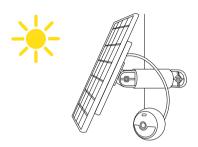

Go to the Noorio Spotlight App, press the picon and then select "Power Management".

Please select "Solar Panel" at the Power Source.

Remarks: If it keeps at "Battery", it will drain the camera battery when there is no sunshine.

Place the solar panel under direct sunlight to continuously charge your camera.

# Specifications
