3. camera compartment
4. honey tank
5. solar panel slot
6. strap holes
7. tray
8. back cover
9. 1/4" screw hole
10. strap
11. support fame
12. connection screw
13. mounting screws and wall anchors

# Installation

1. Install the camera in the camera compartment with the correct adapter and pusher as follows.
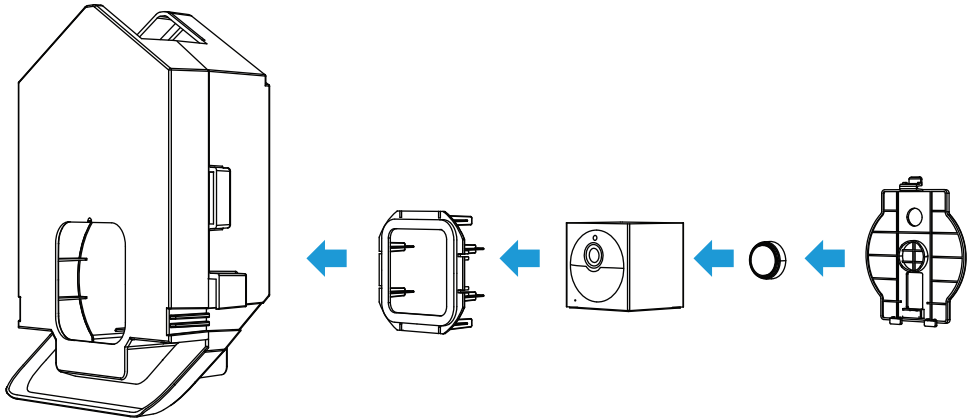

| Camera and Corresponding Adapter | | | | |
|---|---|---|---|---|
| | Blink Outdoor | Ring Stick Up | Wyze Cam Outdoor (without the bottom mount) | Wyze Cam V3 (power cable requires) |
| Camera | | | | |
| Label | N/A | R | O | V |
| Adapter | N/A | R | | V |
| Pusher | | N/A | | |

2. Mount the food container in your preferred location. Choose an area that is good for birds.

   a. For a pole or small tree, use the strap provided and tighten firmly.
   

   a1. Wrap the strap around the pole or small tree.
   

   a2. Put the strap through the middle of the buckle.

   

   a3. Loop the strap back through the buckle and pull tightly.
b. For a wall or large tree, use the metal wall mount and mounting screws provided (drill bit size is 1/8").

> **Note:** You can also use other 1/4" mounts (not included) to secure the bird feeder.

3. Connect to the power source if required.

4. Install the tray at the bottom until it clicks.

5. Add the bird food from the opening at the top and close the cover.

6. For feeding hummingbirds, add honey to the tank. Clean regularly by removing and rinsing the tray.

7. Check the trigger event from your camera app.

8. To remove / recharge the camera, take down the bird feeder from the mount or loosen the mounting strap. Then remove the camera from the compartment.

## Tips for Installing the Bird Feeder

1.  Install the bird feeder in a place where birds are likely to go.

2.  Make sure your camera is facing a direction with less trigger events (cars, pedestrians, etc), so as to conserve your camera's battery life.

3.  Power the camera with an external power source if required (make sure your camera and cable are waterproof).

4.  Check the view in the app and adjust the camera to get the best angle for bird watching.

## Powering Camera with Wasserstein Solar Panel

**Note:** For Ring, Blink, and Wyze Outdoor Camera only.

1.  Install the original mount on the roof with the short screw provided.

2.  Connect it to the camera through the hole at the back cover.

3.  Set the solar panel at an angle that gets the most sunlight exposure.

4.  Make sure your camera connected to the solar panel before mount it to the wall / tree.
