

# A portable wrap around labeler

*with the efficiency and mobility desired in small production runs*

## PORTABLE DESIGN

The ELF-50 can be moved easily, so you can set up exactly where you'd like. It can be positioned on a tabletop or bench, or moved in-line for automatic or semi-automatic applications – a convenience not found with heavier, more elaborate labeling machines.

## EASY TO MAINTAIN

In strict compliance with Good Manufacturing Practices (GMP) standards, the ELF-50 is made of 304 stainless steel and anodized aluminum, and carefully treated to guard against the effects of harsher environments. Additionally, its simplistic design enables quick fixes and easy adjustments. Given this durability and easy maintenance, the ELF-50 affords you a solid choice in labeling machine longevity.

## SIMPLE TO USE

With our advanced sensors, the ELF-50 delivers optimal efficiency. Hand wheels provide simple adjustments, enable quick set-up and easy changeover.

# ELF-50 Specifications

PackLeaderUSA.com/ELF-50

## LABEL TYPE

Wrap Around

## SPEED

**Maximum Dispensing Speed:**  
52.5/minute, (16m/minute),  
60 cont/minute

**Maximum Conveyor Speed:**  
32.8/minute, (10m/minute),  
60 cont/minute

## DIMENSIONS

**Dimensions L-W- H:**  
43.3" x 34.3" x 20"  
(1100mm x 870mm x 508mm)

**Maximum Label Size:**  
4.75" x 11.8" (120mm x 300mm)

**Maximum Container Width:**  
6.3" (160mm)

**Conveyor Width:** 6" (152.4mm)  
**Spool Diameter:** 10" (254mm)  
**Inner Core:** 3" (76mm)

## POWER

**Voltage:** 110/220 VAC 50/60 HZ  
1 Phase

**Power in KW:** .460

**Drive:** 2 Phase Stepper Motor

## NET WEIGHT

Approx 165 lbs (75 kgs)

## Flexibility

- The ELF-50's standard one-button teach product and label sensors can be effortlessly adjusted for various labeling applications. And, with the manual position setting, your labels are placed accurately on the product, each and every time.
- It's easy to upgrade the ELF-50 to activate hot-foil printer controls. This integrated feature simplifies label customization and allows the hot-foil printer to work in sync with the labeler to ensure accurate code placement.
- Thanks to the user-friendly operating interface, changing to different labeling applications for various product sizes and types can be done simply and quickly.

## Productivity

- A production preset function means the machine automatically stops once the predetermined quantity of products has been labeled.
- The label count feature lets you precisely track progress at any point during the production run.
- The container/production run counter lets you see the exact production number for the day.
- The ELF-50 features a battery-free microprocessor control system that maintains default settings and memory even after the machine sits idle for a long period of time. Up to five settings can be stored for future use, so you don't have to waste time re-entering the necessary information.

## Accuracy

- The ELF-50's stepper motor essentially counts the "steps" necessary to reach the next label, ensuring fast, accurate label delivery.
- The ELF-50's controls are fully synchronized, ensuring that all components run at the same speed.

## Practicality

- The ELF-50 can be easily and conveniently moved to other production areas, allowing for changes in production or products.
- The ELF-50 is easy to work on and to adjust, putting everything you need at your fingertips with the removal of just a few screws.
- All Pack Leader USA labelers are made of 304 stainless steel and anodized aluminum. This extremely durable metal is specially treated to guard against rusting and other effects from harsher environments.

## Compliance

- All Pack Leader USA labelers are manufactured in compliance with Good Manufacturing Practices (GMP) standards and meet the strict ISO 9001 quality control procedures. So, you can have confidence undergoing required quarterly inspections from industry compliance auditors.

Pack Leader USA boasts a broad selection of quality, versatile labeling machines geared toward the specific labeling requirements of companies around the globe. Pack Leader USA, LLC was formed in 2010 to serve North and Central America.

## A fully automatic labeler for round containers

*with exceptional speed, flexibility and dependability*

### FLEXIBLE DESIGN

The PL-501 is designed to apply pressure-sensitive labels to round containers. And, with just a tap of its one-touch screen, you can easily adjust the settings to apply labels to one side of flat-surfaced containers. The machine's speed adjusts according to your container's surface.

### EASY TO MAINTAIN

The PL-501 is made of 304 stainless steel and anodized aluminum and carefully treated to guard against the effects of harsher environments. This durability translates into a solid choice for labeling machine longevity. In strict compliance with Good Manufacturing Practices (GMP) standards, the PL-501 is dependable, reliable and easy to maintain.

### SIMPLE TO USE

Machine adjustments and changeovers are quick and simple, thanks to the PL-501's easy-to-operate features. The built-in operating instructions, memory preset and troubleshooting guide offered on the operator interface make it easy to use the PL-501. Hand wheels provide for simple adjustments, enable quick set-up and easy changeover.

### MADE TO LAST

In strict compliance with Good Manufacturing Practices (GMP) standards, the PL-501 is made of 304 stainless steel and anodized aluminum, and carefully treated to guard against the effects of harsher environments. This durability translates into a solid choice for labeling machine longevity.

## LABEL TYPES

Wrap Around, One Side  
Apply Optional

## SPEED

Maximum Dispensing Speed:  
131.2'/min (40m/min)

Maximum Conveyor Speed:  
72.2'/min (22m/min)  
\*optional customization

## DIMENSIONS

Dimensions L-W- H:  
79" x 40" x 41"  
(2006mm x 1016mm x 1041mm)

Maximum Label Size:  
6" x 11.8" (H 152mm x L 300mm)

Maximum Container Width:  
4" (101mm)  
6" (152mm) Optional

Conveyor Belt Width:  
3.25" (82.55mm)

Spool Diameter: 14" (356mm)  
Inner Core: 3" (76mm)

## POWER

Voltage: 110/220 VAC 50/60 HZ  
1 Phase

Power in KW: .760

Drive: Stepper Motor

## NET WEIGHT

Approx 330 lbs (150 kgs)

## CONVEYOR HEIGHT

31.75-41.75" (806-1060mm)

## Flexibility

- With the PL-501, labeling for a diverse range of container sizes is fast and easy. The standard one-touch screen and label sensors make it simple to adjust for various labeling applications. And, with the manual position setting, your labels are placed accurately on the product, each and every time.
- Future upgrades are simple. Thanks to the PL-501's thermal or hot foil printer controls, you can easily incorporate a printer if the need should arise. This integrated feature lets printers work in sync with the labeler to ensure accurate code placement. The result? Easy label customization you can turn on or off.
- Depending on your needs, this machine can be used for in-line automatic or semi-automatic applications.

## Productivity

- A production preset function means the machine automatically stops once the predetermined quantity of products has been labeled.
- The label count feature lets you precisely track progress at any point during the production run.
- The container/production run counter lets you see the exact production number for the day.
- The PL-501 features a touchscreen control system with job memory. So, even after the machine sits idle for long periods, you benefit from a battery-free microprocessor control system that stores default settings. Up to 30 settings can be stored for future use, so you don't have to waste time re-entering the necessary information.

## Accuracy

- The PL-501's controls are fully synchronized, ensuring that all components run at the same speed.
- By essentially counting the "steps" necessary to reach the next label, the PL-501's stepper motors ensure fast, accurate label delivery.

## Efficiency

- The auto label-set feature confirms label sensitivity by detecting the separation between each label. With one push of a button, labeling is set up – and positioned correctly.
- The missing label-detect feature locates missing labels on the roll stock, and instantly shuts off the machine if one is found. This preventative feature ensures each product is labeled appropriately.

## Practicality

- The PL-501 can be easily and conveniently moved to other production areas, allowing for changes in production or products.
- The height of the machine's conveyor is adjustable, affording you exceptional convenience and flexibility.
- All Pack Leader USA labelers are made of 304 stainless steel and anodized aluminum. This extremely durable metal is specially treated to guard against rusting and other effects from harsher environments.

## Compliance

- All Pack Leader USA labelers are manufactured in compliance with Good Manufacturing Practices (GMP) standards and meet the strict ISO 9001 quality control procedures. So, you can have confidence undergoing required quarterly inspections from industry compliance auditors.
