

Safety Data Sheet

Scour Pads

1. Identification of the substance / Preparation and Company Information

Product name:	Scour Pads, Fat Pads
Article no.:	204300, 204200
Chemical family:	Polyurethane
Chemical name:	Polyurethane foam
Purpose:	For effective cleaning in a variety of situations.
Name of supplier:	Eagle Protect
Address of supplier:	Unit 5, EPIC 76/106 Manchester Street Christchurch Central, 8011
Telephone:	0800 633 468
Fax:	0800 633 467
E-mail:	info@eagleprotect.co.nz
Website:	www.eagleprotect.co.nz
Emergency telephone:	In the case of an emergency please call 111.

2. Composition/Information on ingredients

Chemical name	Range	PHR
Polyurethane	100%	
Chemical Composition:		
Additional Information:	CAS number 9009-54-5	
Chemical Hazard Rating:		

3. Hazards Identification

General information:	Compiled in accordance to EC N0.1272/2008 and 1907/2006
Classification of the substance according to Directive 67/548/EEC or Directive 1999/45/EC:	
Labelling according to EU guidelines:	
LAT/IATA/ICAO Hazard Rating :	
D.O.T Rating :	
Risk phrases:	
Safety phrases:	

4. First Aid Measures

General information:	Discontinue use if irritation occurs. Seek medical attention promptly if irritation persists. If systemic reaction occurs, discontinue use and seek emergency
After inhalation:	Move to fresh air immediately, seek medical attention if irritation persists.

After skin contact:	Wash with water and soap. If irritation occurs discontinue use and seek medical advice.
After eye contact:	Wash with running water, seek medical attention if irritation persists.
After swallowing:	N/A

5. Firefighting Measures

Extinguishing Media:	Foam, Carbon Dioxide (CO ₂), dry powder, water spray.
Special hazards arising from the substance:	No detailed information.
Stability:	If stored correctly the product is stable.
Protective equipment:	Protective firefighting equipment, breathing apparatus and clothing should be worn.

6. Accidental Release Measures

Personal precautions:	Wear personal protective equipment and appropriate breathing apparatus as necessary to protect from dust.
Environmental precautions:	Keep product away from open water or sewer sources.
Methods and material for containment and cleaning up:	May be disposed of with household waste. Dispose of in accordance with local government regulations.

7. Handling and Storage

Precautions for safe handling:	
Fire and explosion protection:	Keep away from sources of ignition. No smoking near product.
Requirements to be met by storerooms and receptacles:	Store in the shade. Keep in a well-ventilated area with good circulation.
Information about storage in one common storage facility:	Store away from food, flammable substances and oxidising agents.
Further information about storage conditions:	Keep away from sunlight and heat.

8. Exposure controls/personal protection

Additional information about design of technical facilities:	
Ingredients with limit values that require monitoring at the workplace:	None
Personal protective equipment:	
General protective and hygienic measures:	Usual precaution measures should be taken.
Respiratory protection:	Correct breathing apparatus should be worn.
Protection of hands:	Protective impenetrable gloves should be worn.

9. Physical and Chemical Properties

Appearance:	Solid
Form:	Rectangular 150x200x8mm, and 150x200x15mm
Colour:	Green

Odour:	Odourless
pH Value:	
Melting point:	
Boiling point:	
Flash point:	
Flammability (solid, gaseous)	
Ignition temperature:	
Self-igniting:	No
Danger of explosion:	None
Explosion limits:	
Vapour pressure at 20°C	
Density:	
Breaking Point:	
Elongation Raths:	
Solubility in water:	
Segregation coefficient (n-octanol /water):	
Viscosity Dynamic: Kinematic:	
Solvent content:	
Solids content:	

10. Stability and Reactivity

Thermal decomposition/conditions to be avoided:	If used according to instructions, there will be no degradation
Incompatibility/Materials:	Arc oxidant
Hazardous Polymerisation:	
Hazardous Decomposition Products:	If ignited, hazardous decomposition products will occur.
Stability	If stored correctly, the product is stable.

11. Toxicological Information

Acute toxicity:	LD/LC50 – no detailed info.
Primary irritant effect On the skin: On the eyes:	May be an irritant to skin May be an irritant to eyes
Sensitization:	May cause an allergic effect
Additional toxicological information:	No detailed info

12. Ecological Information

Aquatic toxicity:	Mild toxicity in water
Persistence and degradability:	
Behaviour in environmental systems:	
Bio accumulative potential:	
Ecotoxicological effects:	

13. Disposal Considerations

General Methods:	Dispose of according to local government regulations.
Disposal Methods:	Can be disposed of with household waste
Disposal of Packaging:	Dispose of according to local government regulations

14. Transport Information

General:	
UN Number:	Unknown
Transport hazard class:	Not classified as hazardous for transport
Packing group:	
Environmental hazards:	No
Special precautions for user:	

15. Regulatory Information

Labelling:	
Hazard designation of product:	
Transport hazard class:	Not classified as hazardous for transport.
Hazard components of labelling:	
Risk phrases:	
Safety phrases:	In the event of skin irritation or rash, discontinue use. Avoid contact with eyes.
Special labelling:	SDS completed in compliance with EC No.1272/2008 and 1907/2006

16. Other Information

Issued by:	Health & Safety
Revision date:	10/05/2017

DISCLAIMER

This information is based on presently available data and knowledge. It describes the product related to the appropriate safety precautions.

The information contained in this SDS has been compiled from reliable sources and is believed to be correct as of the date issued. It is the responsibility of the user to determine the appropriateness and applicability to their situation. Eagle Protect disclaims any expressed or implied warranty as to the accuracy of the above information and shall not be held liable for any direct, incidental, or consequential damages from use or reliance on the above information.
