

Curtis D500 Drip Brewer

Enjoy WA-2!'s awesome selection of gourmet fresh coffees with the D500 brewer!

This countertop brewing method is designed for coffee stations that want to brew a variety of coffees that stay hot and fresh throughout the day. The best part about this style of brewer is that it's easy to switch up the coffees you use - so you can enjoy a different kind of coffee each time you order!

Notable features:

- Built-in hot water tap for tea & soup lovers
- Easy to change-up coffees
- Thermal pots keep the coffee hot for 4+ hours
- 2 pots quickly serve the big morning rush of grumpy coffee drinkers
- The WA-2! station looks clean & awesome!!
