Series: Ultralight

* Viruses (99.99%), bacteria (99.9999% *Klebsiella terrigena*), and protozoa (99.9% *Giardia* and *Cryptosporidium*)

FACTS

- Lightweight, simple design is ideal for worldwide hiking, travel and backpacking
- Purifier achieves highest safety level - removes all microorganisms including *Giardia*, bacteria and viruses
- Microfilter meets EPA standards for removal of *Giardia* and bacteria
- Carbon filter reduces chemicals and makes water taste better
- Includes straw to use as water bottle if water source is already safe
- Microfilter can be updated to a purifier

PRODUCT FEATURES > BENEFITS

- Removes particles and dirt from water
- Versatile filter configurations > Can be used as a water bottle, filter or purifier
- Activated carbon granules > improves water taste and reduces chemicals
- No batteries needed > performs anywhere, any time
- Just dip and sip > makes water available immediately & without pumping
- Can be used as a drinking bottle without filter > eco-friendly
- Convenient carry loop > allows the MyBottle to be carried and fastened with ease

SHORT PROFILE

The MyBottle is the next generation of Katadyn's bestselling water bottle purifiers and microfilters. It is lightweight and simple, ideal for worldwide hiking, travel and backpacking. MyBottle is still the only EPA registered water purifier bottle and, unlike UV systems, performs in challenging water conditions.
