SIMPLY AMAZING

Find real, lasting results from the skin care range pulled straight from the earth.

THE BEAUTY MARKET is saturated with products claiming miracle cures. But most of these claims are just that - claims. Most products are packed with so many fillers, such as silicones and crude oil by-products, they do as much for you as a bar of regular household soap.

Back when former Channel Nine newsreader Robin Lyons was on camera daily, constantly taking off and putting on make-up, she began suffering from terrible skin irritations.

She'd tried everything from over the counter products to medicated Cortisone creams – even balms from high-end brands. It wasn't until a friend recommended a local naturopath that Robin found the results she was looking for. "David gave me one of his medicinal creams, I woke up the next morning and all the redness was gone," she says. "It was unbelievable. But he always amazes me.

He's never stopped amazing me."

Fast-forward 26 years, now married and owners of Simplicité Skin Care, David and Robin are dedicated to providing affordable skin care products that actually work, packed with active plant nutrients and antioxidants.

Treating conditions like sun damage, early ageing, acne, sensitivity and dehydration, their medicinal-quality plant skin care range uses only the highest-grade herbs. "You have to put the fruit and vegetables onto your skin in a form your skin can use," Robin says. "We research, formulate and hand make all 45 of our products in small batches, so you can be assured these are fresh, beautiful to use and give the best results possible."
