

# **Raingler** **NETS & GRIPS**

---

## **2005-2015 Nissan Xterra Full Ceiling Net Install**

**IMPORTANT: READ INSTRUCTIONS FULLY BEFORE STARTING**

*Time: About 35 minutes*

***Paw Level:***

***Tools:*** Ratchet  
10mm bit

## Step 1

Remove small panel over front seatbelts.

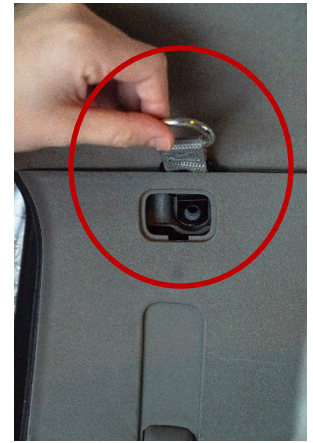

Note: Removal of weather stripping wasn't necessary. Removal of pop-out plastic piece on B pillar can be done by pushing it out from behind by sliding finger down between headliner and B pillar and simply pushing it out.

This rectangle removable piece is directional and has an "UP" indicator with arrow.

## Step 2

Remove the bolt and reinstall with C100XS hardware.

### Step 3

Replace small panel. Loosely loop the front straps into the hardware D ring.

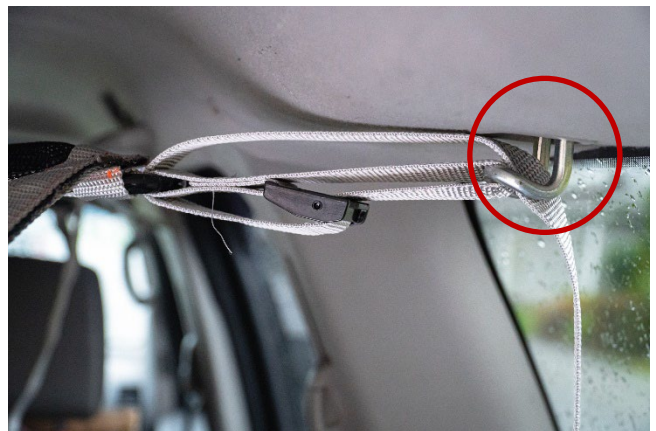

### Step 4

Loop the middle straps through your rear passenger grab handles on each side.

### Step 5

The rear straps loop through the existing ceiling mounts.

## Step 6

Tighten the straps all around so the net is snug and tight as possible.

## Step 6

Once installed, wrap and tuck the extra strap around and through the buckles to get ends out of the way (stock photo shown).
