FABRIC SELECTION & SUGGESTIONS

This design works best with 4-way stretch fabrics, although 2-way stretch fabrics with a bit of vertical give can be used also.

BUT whilst your skirt can be 4-way or 2-way stretch, your waistband MUST be 4-way stretch with elastane.

(1) Does NOT include directional fabrics.

(2) **WASH YOUR FABRIC before cutting!** It's important to wash your fabric before you sew to avoid shrinkage after you've finished your skirt. This is particularly important for cotton, rayon, bamboo & linen.
