

### Aerosols

#### Drug Detection And Identification

**Aerosols** are the fastest and easiest to use presumptive drug tests on the market, detecting both trace and substance levels of drugs.

Mistral’s collection of drug detection, identification products provide law enforcement officers and investigators distinct advantages for field and laboratory use. As with all Mistral products, they are first and foremost non-toxic, non-carcinogenic, and will not harm the environment. In addition, they insure a testing process which is convenient, fast, and efficient. No glass ampoules, spatulas, or waiting time required. Results in seconds. The identification and detection process requires no special training and testing can be performed “on the spot”.

#### FEATURES:

- ▶ Detects trace drug residues
- ▶ Bulk drug detection and identification
- ▶ Will not destroy evidence
- ▶ D4D and Coca tests detect most drugs with two tests
- ▶ Available in cans of 40mL or 100mL - Good for 50 or 100 tests
- ▶ Test results appear in seconds

Aerosol options	Drug Detection
