Presumptive Drug Test (PDT) *Drug Detection And Identification*

PDT is a series of individual, presumptive reagent drug tests that help law enforcement officers, drug enforcement agencies and military CID units quickly and easily identify controlled substances while in the field. MSI provides customers with the most comprehensive, low-cost tests without sacrificing effectiveness.

APPLICATIONS

- ▶ Law Enforcement Agencies
- ▶ K-9 Units
- ▶ Police Departments
- ▶ Customs
- ▶ Border Guards

FEATURES:

- ▶ One-time use
- ▶ Most comprehensive set of tests on the market
