P.S. I invite you to become part of our "Royal" family. We want to reward you for choosing our company, so when you sign up for our VIP Club you will receive exclusive offers that only come a few times a year-no clutter in your inbox!

*“Love, love, love, love, love! I had a lighter diffuser that was always in my way and I hated to re-fill. Plus, the mist could be bothersome spraying on my arm. This is pretty and functional and keeps my car smelling great for a week at a time. -J.R.”*

*“ My girlfriend kept saying the febreze freshener I had on my vent gave her headaches and made her car sick. Since she loves essential oils I got her this set, one clip for her car and one for mine. The bird looks nice and not too pretty and now she is very happy and I think the oils smell better too. - Mike ”*

# You Are 4 Steps Away From Enjoying A Fresh Car!

**Q: How do I know how much essential oils to use?**

**A:** We recommend using 12+ drops of essential oil to effectively purify and scent your car for a longer length of time. However, you should adjust the amount of oil to your liking. Scents differ, so it is all about personal preference and how often you would like to change your fragrance.

**Q: Does it need water?**

**A:** No, only drop in oil for the best aromatic fragrance.

**Q: Does the weather effect its use?**

**A:** Long periods of extreme heat or cold can effect the length of fragrance.

How you use your vehicle can also change the aroma.

Having the fan or other air source run will help to spread the fragrance. If you have your windows down, you can expect to lose some fragrance to the open air.

**Q: Do I need to use both?**

**A:** Not at all. We package the vent clips as a set because many American families have more than one vehicle, and we want them all to smell fresh! However, if you want to use both as a decorative accent or for extra fragrance, please do!

**Q: Can I use it somewhere other than my vehicle?**

**A:** Absolutely! You can use your new freshener anywhere it will clip!

Try in your home or office vent for a humidity free, discreet way of purifying.

# New to Essential Oils?

To provide you with the best experience possible, the following pages include facts & features about essential oils. Keep reading to learn what essential oils you may want to diffuse in your car or home.

## **Not all oils are the same!**

Unfortunately, when it comes to essential oils, not all brands offer the same high quality you might expect. While the label may state “Certified Pure” or “Therapeutic Grade” these are often just marketing terms companies use to pull you in. The truth is the FDA does not regulate the grade of essential oils so many of them contain other oils such as less expensive nut and seed oils and even use synthetic scents.

At Royal Living, we recommend only using trusted essential oil companies, such as *Young Living, doTerra and Mountain Rose*. By only using truly pure essential oils, you will gain the most benefit for your health. As a plus, Young Living is also a U.S. based company and maintains a high standard of customer satisfaction.
