

NSQUARE

CATALOGUE

[NICK CHRONO]

The NICK CHRONO comes equipped with a dynamic timing function, and NSQUARE's Nick Chrono presents a strong masculine charm with a tough athletic style. The large -size 51mm case is majestic, and the stop watch function at the top and bottom of the crown echoes the sporty style of the case. The stop-watch function is presented in a clever layout, and similarly uses the disc design, like the Nick series. This allows the watch enthusiast to see an interesting and dynamic timing function, which adds a lot of fun to the telling of time.

NICK CHRONO

[Nick Chrono Camo]

Regardless of the age or gender, the camouflage design always has its share of fans. Camouflage patterns have become a symbol of the trendy, and major brands have used it on their products from time to time. **NSQUARE**, at the forefront of all trends, is no exception to this, and has launched the Nick Chrono Camo wrist watches, which injects the camouflage design into the already-dynamic Nick Chrono collection. The watch face and strap are clearly matched with a camouflage pattern to evoke different ideas of how to play with the trends. The use of colour is also ever-changing, taking the world by surprise with its fashionable style through its bold displays. This **NSQUARE** series, while absolutely fun, is also unique and attention grabbing.
