VOYAGER

Experience the Charm of Voyage

Searching for inspiration in different places has always been an essential part of NSQUARE's design. This time, NSQUARE began its journey by exploring the depths of the mysterious ocean. Inspired by this adventure, the VOYAGER series is designed to convey the charisma of the ocean on your wrist.

In order to help you experience the charm of voyage, NSQUARE has specially decorated the dial plate with its new pattern inspired by the galleon ships of the 15th century. In addition, this new collection has inherited NSQUARE's intrinsic feature-uniqueness. This means that each element of every watch has its own unique purpose and meaning.

4 types of watches have been designed for the VOYAGER series: N25.1, N25.2, N25.3 and N25.4.

In honour of the voyagers who travelled the seas, the N25.1 watch has a special PVD rose gold case and features a rosewood Galleon body mast. Meanwhile, its vintage style strap is made of the finest crocodile print Italian brown leather and premium quality rubber.

The N25.2 from case to strap is designed in a dark blue representing the magnificent ocean that inspires this series.

By specially modifying its wooden case into a black and PVD gun steel colour, The N25.3 watch creatively combines a modern style and vintage look, impressing anyone with its bold and exquisite design.

Contrasting stylish black and elegant rose gold, the N25.4 watch combines chic with nobility, fully unleashing NSQUARE's diverse styles.

Each of the Voyager watches is equipped with 40-hour dynamic storage and self-winding movement.

If you are fascinated with exclusivity and class, you will fall in love with the VOYAGER series at first sight.
