CATALOGUE

NSQUARE

pays tribute to the propeller aircraft

Both the surging rotation of the propeller, and the fuselage as it pierces harmoniously through the sky, fully expresses dynamism and the human dream.

NSQUARE launches its all-new Propeller wrist watch. The Propeller series of wrist watches is based on the concept of the propeller aircraft, encapsulates its very essence, and concurrently injects a sense of three-dimensional space. By utilising an extra-large propeller aircraft pattern and a most distinctive propeller-shaped second hand for the dial, a modern style is ingeniously blended in through the harmonious and innovative design. The Propeller series of wrist watches is made of stainless steel with a 48mm diameter case, with clear lines and carbon fiber fittings on the bezel to accentuate its unique style. The Propeller series of wrist watches has a built-in Seiko NH35 self-winding movement, with a power reserve of 40 hours. The high-quality PVC strap is engraved with the flight display board, which adds a lot of fun to the telling of time. The Propeller series, with its contemporary design and fine workmanship, seeks to present a smooth experience for the wearer, with the watch fitting perfectly on the wrist.

N26.1

N26.2

Stainless steel 316L black PVD case
NH35 self-winding movement
power reserve of 40 hours
All black dial
Water resistance: 100m
48 mm in diameter

N26.4

Stainless steel 316L case
NH35 self-winding movement
power reserve of 40 hours
Black/gray dial
Water resistance: 100m
48 mm in diameter
