

Snake Queen39mm

— Downsizing but Alluring —

Snakes symbolizes regeneration and immortality, and represents the power to create life. Its incredible and fascinated shapes coincide with the dexterous and beautiful image of the new generation of modern women who are constantly changing.

WEQUARE inspired by the elegant curve of the snake, inlaid with dazzling and charming Swarovski crystals, captures the charm of the snake with brilliant and bold colors and unique design, praising women's intelligence and beauty.

The bold and avant-garde but enchanting Snake Series design has deeply captured the hearts of everyone as always. In view of this, NEQUARE launched the mini version of Snake Queen 39mm series. Compared with the previous popular Snake King & Snake Queen Series of large surface of 46mm, the new series is only 39mm, and the diameter is reduced by 7mm. More suitable for ladies with smaller wrists.

The mini version of the Snake Queen 39mm series not only continues the beautiful design of the original Snake Queen, but presents the same quality in a smaller diameter, condensing the essence without losing its elegance. Compared with the original Snake Queen series, the mini version of the Snake Queen 39mm series has a more elegant color, using a mostly single colour as the basic. The strap and dial are all designed in the same color, which makes it easier to match your daily outfits. Regardless of working or dating, you can wear it throughout the day.

Snake Queen 39mm series is inlaid with white round Swarovski crystals and white crystal nails in any style. The white Swarovski crystal will still refract its dazzling luster under different angles and light. The round crystal is also softer than the square crystal of the original Snake Queen series, deepening the feminine femininity.

MiNi Version Of The Snake Queen 39mm Series

Colours are newly added with gentle Turquoise color, vivacious cherry red, intellectual cool gray, magical mysterious purple, and eye-catching night marrom red.

A variety of colors for you to choose more, find the most suitable watch for your own temperament!

Snake Queen 39mm series watch uses Calibre Miyota 8217. automatic movement. The entire steel watch is made of stainless steel 316L, which is resistant to corrosion. It can reduce the color of the watch body from becoming dull due to the influence of sweat, rain, etc.

The strap is different from the previous Snake Series, this mini version uses a rubber strap, which is resistant to dirt and wear. Also it reduces the weight of the watch and maintains its light and thin texture, which is suitable for women who are afraid of heavy watches and reduce the burden.

The watch crystals used special hardened mineral glass with anti-reflective coating to reduce the chance of damage or scratches due to collision. The 3:00 o' clock position is the calendar display window, and the 9:00 o' clock position is the 24-hour counter. Water resistances till to 100m. Use pin buckle. The second hand showed a hollow design, making the image of the watch is more feminine.
